Contemporary Chinese Discourse and Social Practice in China Linda Tsung, Wei Wang, 2015-10-09. Significant socio-political changes in China have had great impact on Chinese discourse. Changes to the discourse have become an increasing focus of scholarship. This book examines contemporary Chinese discourse and social practice in China with a focus on the role that language plays in the ongoing transformation of Chinese society. With a view to producing new insights into the interdependence between discourse and social practice, this volume explores how discourse has been changing in a context-dependent way, how social practice can lead to shifts in the use of discourse, and how identities and attitudes are constructed through language use. Largely based on empirical studies, this book indicates that Chinese discourse has not only been an integral part of social change but also Chinese discourse itself is changing, reflecting ideologies, values, attitudes, identities, and social practice. The book is a great resource for scholars in diverse disciplinary studies, including linguistics, communication, education, media, and political studies concerning contemporary China. *Communist China Digest*, 1965. *Economic Information on Communist China*, 1961. web mar 15 2021 this experiment will further develop your understanding of thermodynamics while relating it to two concepts you already have studied equilibrium and solubility you will determine three thermodynamic values associated with the solubility of potassium nitrate the reaction we will be studying is the dissolution of potassium nitrate in water

lab solubility curve of potassium nitrate studylib net - Jan 02 2022

web analysis construct a solubility curve using the mass of solute that will dissolve in 100 g of water at a specified temperature in this lab 5 ml of water was used assume 1 0 g ml of water take the collected data make it proportional to get the solubility of the KNO_3 graph temperature vs solubility using a best fit curve
