 This book examines how language ideologies are manifested in newspaper media Using the Spanish press as a case study it  
 considers how media discourse both from and about the Real Academia Espa ola constitutes a set of language ideological  
 debates in which the institution represents a vision of what the Spanish language is and what it should be like Paffey adopts a  
 Critical Discourse Analysis approach to a large corpus of texts from Spain s best selling daily newspapers El Pa s and ABC  
 More generally the book sheds light on how institutions produce and maintain visions of standard language in the  
 contemporary context A global language such as Spanish is by nature more widely used outside of the nation state in  
 question than in it The book covers recent research on language ideologies standardization and CDA and considers the  
 application of these to three core discursive themes language unity and a concept of a panhispanic speech community the  
 RAE s construction of its authority and institutional ideologies and management of language on a global scale      **Social

 a revolution of the arts through poetry inspired by European modernism the Other Generation of 27 attempted to renovate

Spanish humour first in prose and then in the theatre and cinema This book demonstrates how these humorists drew on the humour of Chaplin Keaton Lubitsch and the Marx Brothers for their stage comedy and how they stretched the limits of the stage at the time by incorporating cinematic techniques such as flashback voice overs and montage in their search for new dramatic forms

**The Spanish Civil War** George R. Esenwein,2005-11-16 This exciting collection of primary sources on the Spanish Civil War uses military and political documents media accounts and contemporary propaganda to create a representative and illuminating survey of this enormously complicated event more than sixty five years after it ended Structured chronologically from a full introduction which delineates the field this book ranges from the origins of the uprising against Franco through to its turbulent aftermath It clearly outlines key points in the conflict and highlights the little known roles of race and gender in determining the war s outcome The book also unearths many rare sources for the first time and reveals the variety of perspectives held by those immediately involved in the war This is an ideal resource for all students of history and military history

**Tarahumara** Bernard L. Fontana,2016-12-15 Inhabiting the Sierra Madre Occidental of southwestern Chihuahua in Mexico the Tarahumara or Rar muri are known in their language as the foot runners due to the way in which they must navigate their rugged terrain This book offers an accessible ethnography of their history customs and current life accompanied by photographs that offer striking images of these gentle people The subtitle of the book derives from the Tarahumara s belief that the soul works at night while the body sleeps and that during this day of the moon both the spirits of the dead and the souls of the living move about in their mysterious ways As the authors observe the fact that so many men women and children persist in distinctive centuries old cultural traditions in spite of their nearness to all the complexities and attractions of modern industrial society is an important part of the story Their book tells that story and brings readers closer to understanding the Tarahumara world and way of life

Christian responses to Islam Anthony O'Mahony,Emma Loosley,2024-06-04 In the aftermath of 9 11 there has been much talk of a need to engage on a meaningful level with Islam but where do we begin and what is the right approach This book available in paperback for the first time looks at case studies from around the world in order to explore how Christian groups sometimes as minorities and sometimes as the majority engage with their Muslim neighbours in the search for a peaceful society Some of the initiatives are politically motivated others run by Church authorities and a number are community based but all offer different approaches to a variety of situations that are encountered in Christian Islamic dialogue This is the first time that global strategies for dialogue have been published in one book by a series of leading academics Whilst previous publications have concentrated on a particular geographical area usually the Middle East or Europe this book casts a wider net and considers issues such as the rise of radical Islam in post Soviet states Indonesian immigration in Australia and the spread of Islam amongst the Black South Africans after the fall of apartheid Scholars and all those interested in politics current affairs religion or peace studies will find this book essential reading as a guidebook to the state of contemporary Christian Islamic relations

Altisent, 2008 The Spanish novel in a turbulent century This collection of studies by eighteen prominent theorists and critics offers a diverse panorama of the modern Spanish novel seen through the prism of Spain's recent political cultural and ideological history It considers the development of the novel as a social mirror and as a changing literary form torn between the tradition of stern realism and the aesthetics of rupture affecting all Western literature from the Avant Garde to the Postmodern age While some essays emphasise the Spanish cultural context and canonical writers others are of a broader nature grouping lesser known writers under certain literary tendencies the metaphysical novel the urban novel recuperative accounts of the Civil War feminine first person narrations and the rise of the popular detective historical and erotic novels Three studies address the resurgence of the Catalan Basque and Galician novel and their departure from a poetics of identity to one of global concerns Interdisciplinary approaches address the reciprocal impacts of literature and cinema and the effects of the marketplace on the consumption of fiction are not forgotten The Companion provides ample bibliographies and a valuable chronology while all titles and quotations are translated into English Contributors Marta E Altisent Katarzyna Olga Beilin Ram n Buckley Jos F Colmeiro Stacey Dolgin Casado Sebastiaan Faber David K Herzberger Carlos Alex Longhurst Kathleen N March Cristina Mart nez Carazo Alfredo Mart nez Exp sito Nina L Molinaro Gonzalo Navajas Mari Jose Olaziregi Janet D P rez Randolph D Pope Josep Miquel Sobrer H Rosi Song

**Gothic Terrors** Abigail Lee Six, 2010 Gothic Terrors brings together two discursive fields that have had very little contact hitherto Gothic Studies and Hispanism Though widely accepted in English studies Hispanists seldom invoke the concept of a Gothic mode existing beyond its first appearance in the eighteenth century Highlighting Gothic elements in mainstream Spanish fiction from the nineteenth century until the present day Lee Six challenges the view that Spanish writers rejected what the Gothic had to offer Through close study of texts by Benito P rez Gald s Emilia Pardo Baz n Miguel de Unamuno Camilo Jos Cela Adelaida Garc a Morales Espido Freire and Javier Garc a S nchez Lee Six traces the evolution of three staples of the Gothic the heroine imprisoned on grounds of madness the doubled or split character and the use of violent gory description Persuasively argued and well researched Gothic Terrors reflects on the Gothic presence in Spanish mainstream literature and identifies two important ways in which it crosses cultural divides the traditional gulf between high and low culture within Spain and the engagement of Spanish creative writers with transnational literary trends Gothic Terrors will thus appeal to Gothic scholars who are interested in the Spanish dimension of their field as well as to Hispanists who may have been unaware of how relevant and useful Gothic studies could be for them Publisher's website
