A Most Tolerant Little Town Rachel Louise Martin,2024-07-23 An intimate portrait of a small Southern town living through tumultuous times this propulsive piece of forgotten civil rights history about the first school to attempt court ordered desegregation in the wake of Brown v Board will forever change how you think of the end of racial segregation in America In graduate school Rachel Martin volunteered with a Southern oral history project One day she was sent to a small town in Tennessee in the foothills of the Appalachians where locals wanted to build a museum to commemorate the events of August 1956 when Clinton High School became the first school in the former Confederacy to undergo court mandated desegregation After recording a dozen interviews Rachel asked the museum s curator why everyone she d been told to gather stories from was white Weren t there any Black residents of Clinton who remembered this history A few hours later she got a call from the head of the oral history project the town of Clinton didn t want her help anymore For years Rachel

Martin wondered what it was the white residents of Clinton didn't want remembered. So she went back eventually interviewing sixty residents including the surviving Black students who'd desegregated Clinton High to piece together what happened back in 1956: the death threats and beatings, picket lines and cross burnings, neighbors turned on neighbors and preachers for the first time at a loss for words. The national guard had rushed to town followed by national journalists like Edward Murrow and even evangelist Billy Graham. And still tensions continued to rise until white supremacists bombed the school. In *A Most Tolerant Little Town* Rachel Martin weaves together a dozen disparate perspectives in an intimate and yet kaleidoscopic portrait of a small town living through a tumultuous turning point for America. The result is a propulsive piece of forgotten civil rights history that reads like a ticking time bomb and illuminates the devastating costs of being on the frontlines of social change. You may have never before heard of Clinton but you won't be forgetting the town anytime soon.

Egypt's Lost Spring Sherif Khalifa, 2015-07-20 An Egyptian diplomat turned scholar provides a detailed analysis of events from the fall of Mubarak through the aftermath of the 2013 military move to oust Egypt's first democratically elected president. The Arab Spring caught the world by surprise and was truly inspiring. Then many watched with bewilderment as the process unfolded in unforeseen directions. This lively and well-documented book tells the story of events in Egypt from the end of the Mubarak era in 2010 through the revolution in 2011 and the military interference in the summer of 2013. Written from an insider's perspective, it discusses what occurred and analyzes the motives of the parties involved, putting each incident in context so the reader can see and understand the big picture. The author's background as an Egyptian diplomat provides insights that fuel a nuanced and richly detailed study. Among other topics, the book sheds light on the Egyptian military and economy, the life and written opinions of the military leader Al Sisi, and ties between the United States and the Egyptian armed forces. It reveals evidence of a conspiracy against the first elected civilian administration in Egypt, details the conflict between the Islamists and the deep state, and examines the rise and fall of political Islam. A final chapter speculates about possible scenarios for the future of Egypt. *Codes & Cheats Spring 2008 Edition*, Report of the Governor of New Mexico to the Secretary of the Interior New Mexico. Helliconia Spring Brian W. Aldiss, 2014-04-01 The Hugo and Nebula Award-winning author and Science Fiction Grand Master delivers a sweeping epic of a planet suffering deadly conditions of alternating extremes in this Nebula Award finalist. *Helliconia* follows an eccentric orbit around a double star system with a twenty-six hundred year cycle of very long seasons. As spring slowly breaks the brutally long winter, humans emerge from hibernating and a long sequence of civilization and growth begins to repeat again unbeknownst to the participants but watched by an orbiting satellite station. *Avernus*, created by Earth some centuries ago, humans free themselves from slavery to the aboriginal Phagors, and religion and science flower and expand. Brian W. Aldiss has for more than fifty years continued to challenge readers' minds with literate thought provoking and inventive fiction. *Helliconia Spring*'s prescience with regard to climate change is nothing short of extraordinary.
