professional and technical writing programs The essays in the collection offer reflections on efforts to bridge two cultures what the editors characterize as the art and science of writing often by addressing explicitly the tensions between them Design Discourse offers insights into the high stakes decisions made by program designers as they seek to function at the intersection of the practical and the abstract the human and the technical

Critical Power Tools J. Blake Scott ,Bernadette Longo ,Katherine V. Wills,2007-06-01 Winner of the 2007 National Council of Teachers of English NCTE Award for Best Collection of Essays on Technical and Scientific Communication The first book to focus on the intersection of cultural studies and technical communication Critical Power Tools draws on various traditions of cultural studies to develop new or expanded theoretical methodological and pedagogical approaches to technical communication Offered as a sourcebook for the field the book is organized into three parts The first section emphasizing theory building reconceptualizes key concepts or practices such as usability through a cultural studies lens The second section illustrates alternative research methods through several case studies The third section offers critical and productive pedagogical approaches including specific assignments applicable to both undergraduate and graduate courses

Deadly Documents Mark Ward,2016-12-05 Scholars teachers and practitioners of organizational professional and technical communication and rhetoric are target audiences for a new book that reaches across those disciplines to explore the dynamics of the Holocaust More than a history the book uses the extreme case of the Final Solution to illumine the communicative constitution of organizations and to break new ground on destructive organizational communication and ethics Deadly Documents Technical Communication Organizational Discourse and the Holocaust Lessons from the Rhetorical Work of Everyday Texts starts with a microcosmic look at a single Nazi bureau Through close rhetorical visual and discursive analyses of organizational and technical documents produced by the SS Security Police Technical Matters Group the bureau that managed the Nazi mobile gas van program author Mark Ward shows how everyday texts functioned as boundary objects on which competing organizational interests could project their own interpretations and temporarily negotiate consensus for their parts in the Final Solution The initial chapters of Deadly Documents provide a historical ethnography of the SS technical bureau by closely describing the institutional and organizational cultures in which it operated and relating organizational stories told in postwar testimony by the desk murderers themselves Then through examination of the primary material of their documents Ward demonstrates how this Social Darwinist world of competing Nazi bureaucrats deployed rhetorical and linguistic resources to construct a social reality that normalized genocide Ward goes beyond the usual Weberian bureaucratic paradigm and applies to the problem of the Holocaust both the interpretive view that sees organizations as socially constructed through communication and the postmodern view that denies the notion of a preexisting social object called an organization and instead situates it within larger discourses The concluding chapters trace how contemporary scholars of professional communication have wrestled with the Nazi case and developed a consensus explanation that the desk murderers were amoral technocrats

Though the explanation is dismissed by most historians it nevertheless offers Ward argues a comforting distance between us and them Yet as Ward writes First we will learn more about the dynamic role of everyday texts in organizational processes Second as we see these processes perhaps inherent to all organized communities including our own at work even in the extreme case of the SS Technical Matters Group the comforting distance that we now maintain between them and us is necessarily diminished And third our newfound discomfort may open productive spaces to revisit conventional wisdoms about the ethics of technical and organizational communication

User Localization Strategies in the Face of Technological Breakdown Isidore Kafui Dorpenyo, 2019-08-20 This book examines Ghana's use of the fingerprint biometric technology in order to further conversations about localization championed by technical communication scholars Localization in this case refers to the extent to which users demonstrate their knowledge of use by subverting and reconfiguring the purpose of technology to solve local problems Dorpenyo argues that the success of a technology depends on how it meets the users' needs and the creative efforts users put into use situations In User Localization Strategies in the Face of Technological Breakdown Dorpenyo advocates studying how users of technological systems construct knowledge about the technology and develop local strategies to solve technological breakdowns By analyzing technical documents and interview transcripts the author identifies and advances three user localization strategies linguistic localization subversive localization and user heuristic experience localization and considers how biometric systems can become a tool of marginalization

Digital Literacy for Technical Communication Rachel Spilka, 2009-12-04 Digital Literacy for Technical Communication helps technical communicators make better sense of technology's impact on their work so they can identify new ways to adapt, adjust and evolve fulfilling their own professional potential This collection is comprised of three sections each designed to explore answers to these questions How has technical communication work changed in response to the current digital writing environment What is important foundational knowledge in our field that all technical communicators need to learn How can we revise past theories or develop new ones to better understand how technology has transformed our work Bringing together highly regarded specialists in digital literacy this anthology will serve as an indispensable resource for scholars students and practitioners It illuminates technology's impact on their work and prepares them to respond to the constant changes and challenges in the new digital universe
