Leese,2025-10-14 *At Sea Against the Soviet Fleet* is a history of the evolution of the United States Navy s Operational Intelligence culture that informs great power competition with China today *At Sea Against the Soviet Fleet* examines the critical transformation of naval intelligence during a pivotal era marked by the Cold War and the Vietnam conflict Bryan Leese meticulously details how U S Navy operational intelligence evolved to meet the complexities of modern naval warfare

particularly in response to the increasing threats posed by the Soviet Navy. Structured into four main parts, this book begins by examining the Vietnam War and the institutionalization of shipboard operational intelligence or what Navy intelligence calls Opintel. The book highlights the establishment of Integrated Operational Intelligence Centers as part of the RA 5C Vigilante program and the innovative strategies that emerged in air combat and targeting. Leese goes on to underscore the necessity of Opintel to the U.S. Navy's close and distant blockade strategy in the 1960s and 1970s. He delves into the decentralization of intelligence processes, emphasizing the importance of adaptability and the need to prevent surprise attacks. This evolution is framed within the transition to the Navy's Ocean Surveillance Information System, a decentralized and responsive operational intelligence system. The ongoing developments of shipboard intelligence capabilities are explored, demonstrating how these advancements empowered naval commanders. In the 1970s, the organizations evolved as the revolutionary Opintel adaptations of the 1960s that leveraged cooperation without hierarchy became formalized. Leese highlights the revolution-to-evolution process by introducing Opintel support to shipboard tactical decisions to integrate operational intelligence into comprehensive naval strategies. Capturing the essence of this transformative period, the author discusses the cultural dynamics within the Navy that fostered innovation and interdepartmental collaboration. These developments not only contributed to maintaining a strategic edge over the Soviet Union but also laid the groundwork for future naval operations in the digital age. Leese's work reveals the intricate interplay between technology, strategy, and personnel in creating an effective intelligence framework that allows the U.S. Navy to assert influence at sea, setting conditions for sea control in conflict. By blending rich archival research with firsthand accounts, this book offers a nuanced understanding of how the Navy adapted to an ever-changing operational landscape, ultimately preserving peace while navigating the complexities of high-stakes maritime conflict.

One of the most exciting debut anti-heroes since Lee Child's Jack Reacher, Turbo Vlost learned early that life is like a game of cards. It's not always about winning. Sometimes it's just a matter of making your enemies fold. First, Turbo is a man with a past: his childhood was spent in the Soviet Gulag, while half of his adult life was spent in service to the KGB. His painful memories led to the demolition of his marriage, the separation from his only son, and his effective exile from Russia. Turbo now lives in New York City, where he runs a one-man business finding things for people. However, his past comes crashing into the present when he finds out that his new client is married to his ex-wife, his surrogate father—the man who saved him from the Gulag and recruited him into the KGB—has been shot, and he finds himself once again on the wrong side of the surrogate father's natural son, the head of the Russian mob in Brooklyn. As Turbo tries to navigate his way through a labyrinthine maze of deceit, he discovers that all of these people have secrets that they are willing to go to any lengths to protect. Turbo didn't survive the camps and the Cold War without becoming one wily operator. He's ready to show them all why he is.

always the one who's LAST TO FOLD One of the most original protagonists I've ever come across a cross between Arkady Renko and Philip Marlowe a Russian born ex KGB agent living in New York a private eye with a strong sense of irony and a Russian sense of fatalism David Duffy knows his Russia inside and out but most of all he knows how to tell a story with flair and elegance This is really really good Joseph Finder New York Times best selling author of Vanished and Buried Secrets
