Spymaster Dai Li And The Chinese Secret Service:

Spymaster Frederic Wakeman, 2003-06-03 Wakeman's authoritative biography of the ruthlessly powerful man who led the Chinese Secret Service during the violent and tumultuous period after the fall of the Imperial system *Spymaster*, 2003 The most feared man in China Dai Li was chief of Chiang Kai shek's secret service during World War II This sweeping biography of China's Himmler based on recently opened intelligence archives traces Dai's rise from obscurity as a rural hooligan and Green Gang blood brother to commander of the paramilitary units of the Blue Shirts and of the dreaded Military Statistics Bureau the world's largest spy and counterespionage organization of its time *Thailand's Secret War* E. Bruce Reynolds, 2005-01-06 This book is an absorbing account of secret operations and political intrigue in wartime Thailand During World War II Free Thai organisations co-operated with Allied intelligence agencies in an effort to rescue their nation from the consequences of its 1941 alliance with Japan They largely succeeded despite internal differences and the conflicting interests and policies of their would be allies China Great Britain and the United States London's determination to punish Thailand placed the British Special Operations Executive SOE at a serious disadvantage in its rivalry with the American Office of Strategic Services OSS The US State Department in contrast strongly supported OSS operations in Thailand viewing them as a vehicle for promoting American political and economic influence in mainland Southeast Asia Declassification of the records of the OSS and the SOE permits full revelation of this complex story of heroic action and political intrigue

Configurations of the Real in Chinese Literary and Aesthetic Modernity Peter Button, 2009 Tracing the formation of the modern concept of literature in 20th century China this book examines the emergence of the Chinese socialist realist novel in relation to the literary and philosophical currents globalized in the wake of capitalist modernity Provided by publisher **China's War on Smuggling** Philip Thai, 2018-06-12 Smuggling along the Chinese coast has been a thorn in the side of many regimes From opium and weapons concealed aboard foreign steamships in the Qing dynasty to nylon stockings and wristwatches trafficked in the People's Republic contests between state and smuggler have exerted a surprising but crucial influence on the political economy of modern China Seeking to consolidate domestic authority and confront foreign challenges states introduced tighter regulations higher taxes and harsher enforcement These interventions sparked widespread defiance triggering further coercive measures Smuggling simultaneously threatened the state's power while inviting repression that strengthened its authority Philip Thai chronicles the vicissitudes of smuggling in modern China its practice suppression and significance to demonstrate the intimate link between illicit coastal trade and the amplification of state power China's War on Smuggling shows that the fight against smuggling was not a simple law enforcement problem but rather an impetus to centralize authority and expand economic controls The smuggling epidemic gave Chinese states pretext to define legal and illegal behavior and the resulting constraints on consumption and movement remade everyday life for individuals merchants and communities Drawing from varied sources such as legal cases customs records and popular

press reports and including diverse perspectives from political leaders frontline enforcers organized traffickers and petty runners Thai uncovers how different regimes policed maritime trade and the unintended consequences their campaigns unleashed China's War on Smuggling traces how defiance and repression redefined state power offering new insights into modern Chinese social legal and economic history *Mao* Philip Short, 2016-12-18 One of the great figures of the twentieth century Chairman Mao looms irrepressibly over the economic rise of China Mao Zedong was the leader of a revolution a communist who lifted hundreds of millions out of poverty an aggressive and distrustful leader and a man responsible for more civilian deaths than perhaps any other historical figure Now four decades after Mao's death acclaimed biographer Philip Short presents a fully updated and revised edition of his ground breaking and masterly biography Vivid uncompromising and unflinching Short presents in one volume the man behind the propaganda his family his beliefs and his horrors In doing so he shows us both the human being Mao was and the monster he became *Reinventing the Methodology of Studying Contemporary China* Peter Kien-hong YU, 2017-07-03 This book illustrates how the one dot theory which is a dialectical study is well suited to describing explaining and inferring contemporary China's past present and future It argues that since October 1949 the field of contemporary China studies has been dominated by modified and abandoned non dialectical theories and models It also challenges selected non dialectical theories and models which were first generated in the West such as the game theory and rational choice theory With its emphasis on methodology the book offers a valuable resource for academics researchers and practitioners alike with an interest in logically systematically and coherently unraveling Taiwan's and mainland China's contemporary politics and international relations *Asian American Spies* Brian Masaru Hayashi, 2021-05-15 This history of Asian Americans in the Office of Strategic Services OSS during World War II reveals the inner workings of this spy agency and how Euroamerican leaders' conceptions of race and loyalty shaped US wartime intelligence **Women Warriors and Wartime Spies of China** Louise Edwards, 2016-04-07 Explores China's most famous women warriors and wartime spies shedding new light on the relationship between gender and militarisation

Shots in the Dark Jadwiga Biskupska, Sara B. Castro, 2025-09-02 Brings together geographies and methodologies often kept apart by the difficulties of researching such a broad ranging topic as the war Shots in the Dark offers cutting edge scholarship across different subfields in World War II history revealing new insights into how this crucial conflict was planned experienced and fought Twelve chapters demonstrate the broad scope of wartime innovation and how the war functioned as a global turning point driving change at all levels of human society from government institutions to individual identities Contributors collaborated in a vibrant workshops series sponsored by the North American branch of the Second World War Research Group SWWRGNA an organization that emerged to nurture scholarship on the global war and unite scholars fragmented in narrower regional and methodological stovepipes to consider the war as a whole The SWWRGNA and this volume showcase the work of diverse historians across subfields operational cultural gender social intelligence and

diplomatic history This approach exposes the Second World War as a catalyst for overlapping global changes that revolutionized the world after 1945 These scholars reveal continuities and parallels in wartime experiences that would remain invisible in narrowly focused projects The volume establishes three frameworks for understanding and interpreting changes the war provoked 1 institutional adaptation 2 totalization or the militarization of civilians and 3 cultural transformation Each of the three frameworks is explored from four vantage points Geographies are deliberately contrasted within each framework to examine the broad scope of that level of war driven change *Between Mao and McCarthy* Charlotte Brooks, 2015-01-07 During the Cold War Chinese Americans struggled to gain political influence in the United States Considered potentially sympathetic to communism their communities attracted substantial public and government scrutiny particularly in San Francisco and New York *Between Mao and McCarthy* looks at the divergent ways that Chinese Americans in these two cities balanced domestic and international pressures during the tense Cold War era On both coasts Chinese Americans sought to gain political power and defend their civil rights yet only the San Franciscans succeeded Forging multiracial coalitions and encouraging voting and moderate activism they avoided the deep divisions and factionalism that consumed their counterparts in New York Drawing on extensive research in both Chinese and English language sources Charlotte Brooks uncovers the complex diverse and surprisingly vibrant politics of an ethnic group trying to find its voice and flex its political muscle in Cold War America **Poetry, History, Memory** Zhiyi Yang, 2023-11-02 Wang Jingwei poet and politician patriot and traitor has always been a figure of major academic and popular interest Until now his story has never been properly told let alone critically investigated The significance of his biography is evident from an ongoing war on cultural memory modern mainland China prohibits serious academic research on wartime collaboration in general and on Wang Jingwei in particular At this critical juncture when the recollection of World War II is fading from living memory and transforming into historical memory this knowledge embargo will undoubtedly affect how China remembers its anti fascist role in WWII In *Poetry History Memory* Wang Jingwei and China in Dark Times Zhiyi Yang brings us a long overdue reexamination of Wang's impact on cultural memory of WWII in China In this book Yang brings disparate methodologies into a fruitful dialogue including sophisticated methods of poetic interpretation The author argues that Wang's lyric poetry as the public performance of a private voice played a central role in constructing his political identity and heavily influenced the public's posthumous memory of him Drawing on archives in the PRC Taiwan Japan the USA France and Germany memoirs historical journals newspapers interviews and other scholarly works this book offers the first biography of Wang that addresses his political literary and personal life in a critical light and with sympathetic impartiality **Mission to Mao** Sara B. Castro, 2024 In the midst of World War II the United States sent a liaison mission to the headquarters of Chinese Communist forces behind the lines in Yan'an China Nicknamed the Dixie Mission for its location in rebel territory it was an interagency delegation that included intelligence officers from the Office of Strategic Services OSS

The intelligence officers were there to gather intelligence that would help the war effort against Japan but interagency and political conflicts erupted over whether or not the mission would expand beyond intelligence collection to operations with the Communists Mission to Mao is a social history of the OSS officers in the field and their clash with political appointees and Washington over the direction of the US relationship with the Chinese Communists The book reveals the attempts of America's inexperienced intelligence officers to improvise operations and to try to define a role for themselves The book takes us beyond the history of China hands versus American anticommunists who backed Chinese Nationalist Chiang Kai shek introducing more nuance Sara B Castro shows how potential benefits for the war effort were thwarted by politicization but she also shows how the OSS officers overreached their authority and suffered from their own biases and blindspots The book draws upon over 14 000 unpublished records from five archives plus numerous published white papers memoirs and scholarly studies to with a focus on the individual American intelligence officers who spent time in Yan an working with Communist leaders

Making China Modern Klaus Mühlhahn, 2019-01-14 Thoughtful probing a worthy successor to the famous histories of Fairbank and Spence that will be read by all students and scholars of modern China William C Kirby coauthor of Can China Lead It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy But China has a long history of creative adaptation In the eighteenth century the Qing Empire dominated a third of the world's population Then as the Opium Wars and the Taiping Rebellion ripped the country apart China found itself verging on free fall More recently after Mao China managed a surprising recovery rapidly undergoing profound economic and social change A dynamic story of crisis and recovery failure and triumph Making China Modern explores the versatility and resourcefulness that guaranteed China's survival powered its rise and will determine its future Chronicles reforms revolutions and wars through the lens of institutions often rebutting Western impressions New Yorker A remarkable accomplishment Unlike an earlier generation of scholarship Making China Modern does not treat China's contemporary transformation as a postscript It accepts China as a major and active player in the world places China at the center of an interconnected and global network of engagement links domestic politics to international dynamics and seeks to approach China on its own terms Wen hsin Yeh author of Shanghai Splendor

Intimate Communities Nicole Elizabeth Barnes, 2018-10-23 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more When China's War of Resistance against Japan began in July 1937 it sparked an immediate health crisis throughout China In the end China not only survived the war but emerged from the trauma with a more cohesive population Intimate Communities argues that women who worked as military and civilian nurses doctors and midwives during this turbulent period built the national community one relationship at a time In a country with a majority illiterate agricultural population that could not relate to urban elites conceptualization of nationalism these women used their work of healing to create emotional bonds with soldiers and civilians from across the country These

bonds transcended the divides of social class region gender and language **Mobilizing Shanghai Youth** Kristin Mulready-Stone,2014-11-27 In the late nineteenth and early twentieth centuries youth emerged as a new and important social force in many parts of the world In China the image of this new youth imprinted itself on Chinese consciousness and made clear to potential national leaders that future governments would not be able to ignore China s youth or expect them simply to step in line For this and other reasons the Chinese Communist Party CCP the Chinese Nationalist Party GMD and a string of War of Resistance era collaborationist governments all formed youth organizations in an effort to win youth over and harness their vitality and enthusiasm to further their agendas Mobilizing Shanghai Youth explores the similarities and differences among three youth organizations that were connected to Chinese political parties or governments in Shanghai spanning from the beginning of the May Fourth Movement just as youth began to emerge as a powerful social and political force in China to World War II when Nationalist Communist and Japanese forces were still competing for dominance It takes a comparative approach in exploring the similarities and differences trials and tribulations in how the Chinese Communist Party Chinese Nationalist Party and a series of collaborationist regimes sought to appeal to youth through the Communist Youth League the Three People s Principles Youth Corps and the China Youth Corps Focusing on Greater Shanghai allows a detailed exploration of the rise and fall of the original Communist Youth League and its connections to international communism The spotlight on Shanghai also yields the extraordinary finding that the Three People s Principles Youth Corps was a valuable asset to the Nationalist Party operating as a potent resistance organization in Japanese controlled Shanghai whereas branches in Nationalist controlled territory were factionalized dysfunctional and a terrible liability for the Party Most surprisingly the collaborationist China Youth Corps took the most practical and in some ways the most successful approach to mobilizing China s youth The result of exhaustive archival research this book will be of huge interest to students and scholars of Chinese history modern history Communism and the role of youth in revolution Chinese Complaint Systems Qiang Fang,2013-01-25 Complaint systems have existed in China for many years and in 2004 a debate took place in the People s Republic of China PRC over the Letters and Visits System xinfang zhidu which was designed to allow people to register complaints with the upper levels of the government However both parties generally overlooked several different complaint systems that had preceded the Letters and Visits System during China s history Indeed despite the rich heritage of numerous complaint systems throughout China s past most studies of complaint systems in China have paid little attention to the origins development practices impact and nature of similar institutions in the longue dur e of Chinese history Presenting a comprehensive study of complaint systems in Chinese history from early times to the present this important book fills the gap in existing literature on complaint systems in China Drawing on primary sources Qiang Fang analyses the significance of continuities and changes in historical complaint systems for contemporary China where the state continues to be nominally strong but actually fragile Unlike other major theories of popular resistance to the state in China such as everyday resistance

rightful resistance and resistance as legal rights this book develops the theory that behind Chinese complaint systems there was a mentality of natural resistance that has been deeply embedded in Chinese culture political philosophy and folk religion for millennia Given this history Fang concludes that it is likely that some form of complaint system will continue to exist and by helping to mitigate the increasing demands of the Chinese state on the Chinese will serve to strengthen the state An essential contribution understanding the strengths weaknesses and various roles of the Letters and Visits System in contemporary China as well as the systems that have preceded it throughout China s long history this book will be of huge interest to students and scholars of Chinese history politics and law The Compelling Ideal Jan Kiely,2014-05-27 In this groundbreaking volume based on extensive research in Chinese archives and libraries Jan Kiely explores the pre Communist origins of the process of systematic thought reform or reformation ganhua that evolved into a key component of Mao Zedong s revolutionary restructuring of Chinese society Focusing on ganhua as it was employed in China s prison system Kiely s thought provoking work brings the history of this critical phenomenon to life through the stories of individuals who conceptualized implemented and experienced it and he details how these techniques were subsequently adapted for broader social and political use *Telling Chinese History* Frederic E. Wakeman,2009-03-10 Frederic Wakeman s scholarship is impeccable and the breadth of learning in this book is astounding I repeatedly found myself slowing down to savor the material Many of the essays in this collection are no longer easily accessible and placing them together in a single volume will be a great benefit to the next generation of students and scholars Joseph W Esherick author of *The Origins of the Boxer Uprising* This book brings together the best of Frederic Wakeman s articles all of which are beautifully written and represent the remarkable breadth of Wakeman s research The opportunity to read them together sheds new light on Chinese history and on the thought processes of one of the West s greatest historians Madeleine Zelin Director of the East Asian National Resource Center at Columbia University The Citizen and the Chinese State Perry Keller,2017-03-02 This volume addresses several core questions regarding the nature of law in China and its future development In particular these articles shed light on whether the rule of law ideal is commensurable with government based on the Chinese Communist Party Beginning virtually from scratch China has established a comprehensive legal system that boasts a constitution primary and secondary legislation and plentiful regulations covering most areas of public and private life Yet as these articles discuss its courts are enmeshed in Party and state hierarchies and are not empowered to directly apply constitutional principles or rights ensuring that the law is subordinate to national public policy goals Legal and extra legal methods for punishing wrongdoing and resolving disputes also raise questions of due process of law Ultimately the question is therefore whether China s legal system if eschewing formalised human rights is developing a capacity to protect fundamental human dignity
