numerous post graduate and other degrees certificates and diplomas I first achieved my Bachelor of Arts in 1989 with then
majoring in Sociology and Education I studied other subjects too including psychology and philosophy In all honesty I did not
do well at Sociology often struggling with concepts until I did several at post graduate level During my studies I was amazed

very questionable As a result my book came about I wanted other students to realize what I had discovered and observed and
felt my book also contributed to the sociological debate to what society really is and all about its creators It is also ideally for
someone who wants an educational look at my perspective on sociology It is a simple introduction to the inside of how society
is run It does not go into detail any other sociological viewpoint rather just adds to the many that already exist and hopefully
