

Chapter 1: Introduction to Sociology

Notes:

- First things first, sociology is the study of society. This includes the study of groups and their interactions
- A society is defined by a geographical area that share the same culture
- Sociologists study how society affects people and how people impact society
- There are all types of sociology to include sociology of religion, medicine, gerontology, sports, music, etc.
- Like most sciences, sociologists are interested in studying patterns from individuals and groups due to external factors since multiple factors impact our lives
- Sociologists analyze social factors and social institutions to determine patterns, trends, and sometimes make predictions
- Social facts are rules that govern social life. They are related to laws, morals, values, customs, rituals, etc.
- People have been thinking like sociologists long before sociology became a separate academic discipline.
 - Plato, Aristotle, Confucius, Khaldun, Voltaire
- Auguste Comte coined the view to study social patterns as positivism. He believed scientific methods to show the laws how society interacts with individuals and groups
- Harriet Martineau (First Women Sociologist) observed social issues to include economics, social class, inequalities, etc. She was known for translating Comte's work into English.
- Karl Marx was a philosopher and economist. He coined Conflict theory since he thought society was based upon the power struggles between social classes. Marx predicted capitalism would eventually collapse with communism being the successor.
- Émile Durkheim founded sociology as a discipline. Most notably for his works with the division of labor, objective 'social facts' and his work on suicide emphasizing social factors.

Sociology, Work, and Organisations Brian McDonough, Jane Parry, 2024-10-23 This accessible edited collection provides global context for undergraduate and postgraduate students studying the sociology of work and organisations Composed of short example led chapters this book covers a wide range of contemporary topics including the COVID 19 pandemic the digitalisation of work the gig economy and the shifting roles of women and other marginalised groups The book s innovative approach uses case studies as diverse as work life balance in China gender pay inequity in Britain and Germany and the exploitation of workers on the Mexico US border to incorporate

perspectives from both the Global North and South and provide students with the tools to analyse new developments in the rapidly changing world of work. The book is particularly concerned with inequalities and marginalisation in the workplace, discussing discrimination against women, ethnic minorities, migrants and older workers. The book also explores how increasing digitalisation, the rise of the gig economy and the COVID 19 pandemic have impacted working practices and how this relates to precarious employment. Other chapters are dedicated to issues of workplace organisation including female leadership, work-life balance and well-being. The book goes on to explore how climate change and policies such as Universal Basic Income may shape the future of work in the near future. Each chapter also includes useful pedagogical resources including practice exam questions, key concepts and definitions and further readings. Therefore, the book will be an essential reading for undergraduate and postgraduate students studying the sociology of work, business management and organisation.

Body Work Julia Coffey, 2016-03-10. The rise of the health, beauty and fitness industries in recent years has led to an increased focus on the body. Body image, gender and health are issues of long-standing concern in sociology and in youth studies, but a theoretical and empirical focus on the body has been largely missing from this field. This book explores young people's understandings of their bodies in the context of gender and health ideals, consumer culture, individualisation and image. *Body Work* examines the body in youth studies. It explores paradoxical aspects of gendered body work practices, highlighting the contradiction in men's increased participation in these industries as consumers alongside the re-emphasis of their gendered difference. It explores the key ways in which the ideal body is currently achieved via muscularising practices, slimming regimes and cosmetic procedures. Coffey investigates the concept of health and how it is inextricably linked both to the bodily performance of gender ideals and an increased public emphasis on individual management and responsibility in the pursuit of a healthy body. This book's conceptual framework places it at the forefront of theoretical work concerning bodies, affect and images, particularly in its development of Deleuzian research. It will appeal to a wide range of scholars and students in fields of youth studies, education, sociology, gender studies, cultural studies, affect and body studies.

Working In Hotels and Catering Roy C Wood, 2024-02-02. First Published in 1992. The hotel and catering industry is one of the most heterogeneous of industries, consisting as it does of businesses ranging from the most humble cafe to the largest luxury hotel. Strong images of the glamorous nature of the work are often conjured up by the popular media and sit alongside the lures of an industry in which it is theoretically possible to rise to the top from the very lowest levels. This book provides an insight into the circumstances under which hotel and catering services are provided in reality. It is the first text to provide an overview of existing research in the industry and Wood's account is both wide-ranging and accessible. He highlights many previously overlooked aspects of the industry, including such characteristics as low wages, high labour turnover, lack of unionisation and heavy-handed management, which are identified and explored in such a way as to illuminate current practice.
