Sodomy In Reformation Germany And Switzerland 1400 16:

Sodomy in Reformation Germany and Switzerland, 1400-1600 Helmut Puff, 2003-06 During the late Middle Ages a considerable number of men in Germany and Switzerland were executed for committing sodomy Even in the seventeenth century simply speaking of the act was cause for censorship Here in the first history of sodomy in these countries Helmut Puff argues that accusations of sodomy during this era were actually crucial to the success of the Protestant Reformation Drawing on both literary and historical evidence Puff shows that speakers of German associated sodomy with Italy and increasingly Catholicism As the Reformation gained momentum the formerly unspeakable crime of sodomy gained a voice as Martin Luther and others deployed accusations of sodomy to discredit the upper ranks of the Church and to create a sense of community among Protestant believers During the sixteenth century reactions against this defamatory rhetoric and fear that mere mention of sodomy would incite sinful acts combined to repress even court cases of sodomy Written with precision and meticulously researched this revealing study will interest historians of gender sexuality and religion as well as scholars of medieval and early modern history and culture [A Very Brief Introduction to Reformation Doctrine](#) Corneliu C.

Simut, 2024-12-17 This book is for anyone who has an interest in the theology of the Reformation irrespective of one's prior training in the field Undergraduate students and laypersons will find it particularly helpful because it does not require any previous acquaintance with Reformation doctrines All those who want to become minimally acquainted with Reformation thought would therefore find it useful to read or perhaps only browse because the chapters can be approached individually which means that they can read in any order Those who want to delve a little deeper into Reformation issues have a selection of over four hundred sources in the bibliography that can be consulted for further reference **The Cambridge History of**

Christianity: Volume 4, Christianity in Western Europe, c.1100-c.1500 Miri Rubin, Walter Simons, 2014-07-31 During the early middle ages Europe developed complex and varied Christian cultures and from about 1100 secular rulers competing factions and inspired individuals continued to engender a diverse and ever changing mix within Christian society This volume explores the wide range of institutions practices and experiences associated with the life of European Christians in the later middle ages The clergy of this period initiated new approaches to the role of priests bishops and popes and developed an ambitious project to instruct the laity For lay people the practices of parish religion were central but many sought additional ways to enrich their lives as Christians Impulses towards reform and renewal periodically swept across Europe led by charismatic preachers and supported by secular rulers This book provides accessible accounts of these complex historical processes and entices the reader towards further enquiry **Male Same-Sex Relations and the Court**

of Peter I Hanna Filipova, 2025-08-19 This book explores Peter I's same sex relations men's sociability and male favoritism at the royal court in the context of the Petrine myth scenarios of power propaganda and othering The first part is devoted to sources historiography the theory of the topic and the question of why there is still no research on the male same sex

relations of Peter I The second part explores early modern Russian discussion of male same sex relations The third part examines how the motif of Russian male same sex relations was used during the Great Northern War 1700 1721 as a tool of German Swedish anti Russian propaganda This book brings a Russian perspective and Eastern European sources into the field of European queer studies and discusses the possibility of considering the topic of non normative sexuality of the monarch and elites in Petrine Russia in a global context which has not been done before

From Priest's Whore to Pastor's Wife Dr Marjorie Elizabeth Plummer, 2013-07-28 On 13 June 1525 Martin Luther married Katharina von Bora a former nun in a private ceremony officiated by city preacher Johann Bugenhagen Whilst Luther was not the first former monk or Reformer to marry his marriage immediately became one of the iconic episodes of the Protestant Reformation From that point on the marital status of clergy would be a pivotal dividing line between the Catholic and Protestant churches Tackling the early stages of this divide this book provides a fresh assessment of clerical marriage in the first half of the sixteenth century when the debates were undecided and the intellectual and institutional situation remained fluid and changeable It investigates the way that clerical marriage was received and viewed in the dioceses of Mainz and Magdeburg under Archbishop Albrecht of Brandenburg from 1513 to 1545 By concentrating on a cross section of rural and urban settings from three key regions within this territory Saxony Franconia and Swabia the study is able to present a broad comparison of reactions to this contentious issue Although the marital status of the clergy remains perhaps the most identifiable difference between Protestant and Roman Catholic churches remarkably little research has been done on how the shift from a celibate to a married clergy took place during the Reformation in Germany or what reactions such a move elicited As such this book will be welcomed by all those wishing to gain greater insight not only into the theological debates but also into the interactions between social identity governance and religious practice

Setting Plato Straight Todd W. Reeser, 2015-12-28 When we talk of platonic love or relationships today we mean something very different from what Plato meant For this we have fifteenth and sixteenth century European humanists to thank As these scholars most of them Catholic read digested and translated Plato they found themselves faced with a fundamental problem how to be faithful to the text yet not propagate pederasty or homosexuality In Setting Plato Straight Todd W Reeser undertakes the first sustained and comprehensive study of Renaissance textual responses to Platonic same sex sexuality Reeser mines an expansive collection of translations commentaries and literary sources to study how Renaissance translators transformed ancient eros into non erotic non homosexual relations He analyzes the interpretive lenses translators employed and the ways in which they read and reread Plato's texts In spite of this cleansing Reeser finds surviving traces of Platonic same sex sexuality that imply a complicated recurring process of course correction of setting Plato straight

The Fires of Lust Katherine Harvey, 2022-11-28 An illuminating exploration of the surprisingly familiar sex lives of ordinary medieval people The medieval humoral system of medicine suggested that it was possible to die from having too much or too little sex while the Roman

Catholic Church taught that virginity was the ideal state Holy men and women committed themselves to lifelong abstinence in the name of religion Everyone was forced to conform to restrictive rules about who they could have sex with in what way how often and even when and could be harshly punished for getting it wrong Other experiences are more familiar Like us medieval people faced challenges in finding a suitable partner or trying to get pregnant or trying not to They also struggled with many of the same social issues such as whether prostitution should be legalized Above all they shared our fondness for dirty jokes and erotic images By exploring their sex lives the book brings ordinary medieval people to life and reveals details of their most personal thoughts and experiences Ultimately it provides us with an important and intimate connection to the past

Animals and Early Modern Identity Pia F. Cuneo, 2017-07-05 Animals were everywhere in the early modern period and they impacted at least in some way the lives of every kind of early modern person from the humblest peasant to the greatest prince Artists made careers based on depicting them English gentry impoverished themselves spending money on them Humanists exercised their scholarship writing about them Pastors saved souls delivering sermons on them Nobles forged alliances competing with them Foreigners and indigenes negotiated with one another through trading them The nexus between animal human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art literature and of sixteenth and seventeenth century Germany France England Spain and South Africa Collectively these essays investigate how animals horses dogs pigs hogs fish cattle sheep birds rhinoceroses even sea monsters and other creatures served people in Europe England the Americas and Africa to defend contest or transcend the boundaries of early modern identities Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for and a concomitant recognition of the study of animals as a topic that significantly elucidates past and present histories Relevant to a considerable array of disciplines the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross fertilization

the struggle for legal reform **Martin Luther** Lyndal Roper, 2017-03-14 From one of the best of the new Martin Luther biographers The New Yorker a portrait of the complicated founding father of the Protestant Reformation whose intellectual assault on Catholicism transformed Christianity and changed the course of world history Magnificent The Wall Street Journal Penetrating The New York Times Book Review Smart accessible authoritative Hilary Mantel On October 31 1517 so the story goes a shy monk named Martin Luther nailed a piece of paper to the door of the Castle Church in the university town of Wittenberg The ideas contained in these Ninety five Theses which boldly challenged the Catholic Church spread like wildfire Within two months they were known all over Germany So powerful were Martin Luther's broadsides against papal authority that they polarized a continent and tore apart the very foundation of Western Christendom Luther's ideas inspired upheavals whose consequences we live with today But who was the man behind the Ninety five Theses Lyndal Roper's magisterial new biography goes beyond Luther's theology to investigate the inner life of the religious reformer who has been called the last medieval man and the first modern one Here is a full blooded portrait of a revolutionary thinker who was at his core deeply flawed and full of contradictions Luther was a brilliant writer whose biblical translations had a lasting impact on the German language Yet he was also a strident fundamentalist whose scathing rhetorical attacks threatened to alienate those he might persuade He had a colorful even impish personality and when he left the monastery to get married to spite the Devil he explained he wooed and wed an ex nun But he had an ugly side too When German peasants rose up against the nobility Luther urged the aristocracy to slaughter them He was a ferocious anti Semite and a virulent misogynist even as he argued for liberated human sexuality within marriage A distinguished historian of early modern Europe Lyndal Roper looks deep inside the heart of this singularly complex figure The force of Luther's personality she argues had enormous historical effects both good and ill By bringing us closer than ever to the man himself she opens up a new vision of the Reformation and the world it created and draws a fully three dimensional portrait of its founder **The Oxford Handbook of Early Modern European History, 1350-1750** Hamish Scott, 2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic
