*Conspiracy Code* Sinclair Harper, MD, 2025-07-05 Tired of pills that bring more side effects than relief What if two of the most promising tools in the fight against cancer weren't found in a billion dollar lab but on a farm shelf and in a forgotten patent For decades you've been told the same story cancer is a genetic curse or bad luck and only chemo radiation and surgery offer hope But what if that's not the full truth Here's the twist Some of the most jaw dropping cancer turnarounds in recent years involve Fenbendazole a dog dewormer and Ivermectin a humble anti parasitic Now thanks to emerging studies and real world cases these low cost low toxicity protocols are breaking into the spotlight And they're doing it quietly What They Don't Want You to Know Inside this bold eye opening book you'll discover The real science behind Fenbendazole and Ivermectin stripped of hype loaded with evidence How one man beat stage IV lung cancer using a protocol the mainstream won't mention Dosage logic combinations and how these protocols work alongside not against traditional treatments The cancer fighting synergy between everyday nutrients and overlooked drugs Why certain studies were buried and how to read between the lines One Trick That Changes Everything It's not about finding a magic bullet It's about combining ingredients the right way and giving your body the tools to heal itself Just like combining lemon balm and valerian enhances sleep pairing Ivermectin with zinc or Fenbendazole with curcumin may unlock healing in ways modern protocols never taught us Why This Book Is Different Based on over 400 peer reviewed studies Backed by real survivor stories Free of medical jargon written for patients caregivers and curious minds Includes sample protocols supplement pairings and detox support strategies Not just theory this is actionable information you can discuss with your doctor today This is more than a book it's a roadmap to
