with an immense power that can be used for good or ill     THE TIRNANO Peter Emmerson,     *The Ancient Egyptian Books of the Afterlife* Erik Hornung, 1999 This volume offers a survey about what is known about the Ancient Egyptians vision of the afterlife and an examination of these beliefs that were written down in books that were later discovered in royal tombs The contents of the texts range from the collection of spells in the Book of the Dead which was intended to offer practical assistance on the journey to the afterlife to the detailed accounts of the hereafter provided in the Books of the Netherworld The author looks closely at these latter works while summarizing the contents of the Book of the Dead and other widely studied examples of the genre For each composition he discusses the history of its ancient transmission and its decipherment in modern times supplying bibliographic information for any text editions He also seeks to determine whether this literature as a whole presents a monolithic conception of the afterlife The volume features many drawings from the books themselves
