appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson calls spiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others Messianism and Sociopolitical Revolution in Medieval Islam Said Amir Arjomand, 2025-10-28 This study of messianism and revolution examines an extremely rich though unexplored historical record on the rise of Islam and its sociopolitical revolutions from Muhammad's constitutive revolution in Arabia to the Abbasid revolution in the East and the Fatimid and Almohad revolutions in North Africa and the Maghreb Bringing the revolutions together in a comprehensive framework Sa d Amir Arjomand uses sociological theory as well as the critical tools of modern historiography to argue that a volatile but recurring combination of apocalyptic motivation and revolutionary action was a driving force of historical change time and again In addition to tracing these threads throughout 500 years of history Arjomand also establishes how messianic beliefs were rooted in the earlier Judaic and Manichaean notions of apocalyptic transformation of the world By bringing to light these linkages and factors not found in the dominant sources this text offers a sweeping account of the long arc of Islamic history By Noon Prayer Fadwa El Guindi, 2020-05-25 A groundbreaking anthropological analysis of Islam as experienced by Muslims By Noon Prayer builds a conceptual model of Islam as a whole while travelling along a comparative path of biblical Egyptological ethnographic poetic scriptural and visual materials Grounded in long term observation of Arabo Islamic culture and society the study captures the rhythm of Islam weaving through the lives of Muslim women and men Examples of the rhythmic nature of Islam can be seen in all aspects of Muslims everyday lives Muslims break their Ramadan fast upon the sun setting and they receive Ramadan by sighting the new moon Prayer for their dead is by noon and burial is before sunset This is space and time in Islam moon sun dawn and sunset are all part of a unique and unified rhythm interweaving the sacred and the ordinary nature and culture in a pattern that is characteristically Islamic Power Generation and the Environment Anco S. Blazev, 2021-01-07 Natural and man made changes in the environment create a very complex picture This book analyzes this picture and provides snapshots of different areas of interest and to make suggestions for future work on cleaning and stabilizing the Earth's environment Starting with conventional energy generation and moving on to renewable energies this book analyzes and calculates their environmental impact and the lesser known aspects of their cradle to grave life cycle such as the irreversible environmental damage done during the manufacturing of solar and wind equipment and during the installation operation and decommissioning of large scale hydro solar and wind power plants *The Huevolution of Sacred*
