Kidd,2014-08-29 Our current education system is overloaded with amendments additions and adjustments which have been designed to keep an outdated model in the air But it is crashing And as it comes down we see the battle of blame begin It is time to take our vocation back to learn to trust ourselves and each other and crucially to take control of the direction of education and policy We have allowed powerful institutions to manipulate the fear of parents and teachers to the extent that neither can see how to proceed without being told what to think Covering education policy PISA testing Ofsted exams pedagogy and much more this book explores how the so called accountability and quality systems in our country have been used to straightjacket teachers into compliance even when flying in the face of emerging knowledge and understanding about learning This is a narrative of hope Of how the system could be different It offers tales from within the classroom of learning in spite but without spite Of hope of laughter of gentle subversion This is a call to arms in a pedagogical revolution Will you answer it **The Power of Words** Scott C. Concepts related to alterity such as simulation, the structure of reality, dreaming, and parallel universes are investigated as part of Adams's fantastic story space.
