to which nobody is home in the skull just stacks of brain meat a condition i ek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes i ek offers interludes that deal with more specific topics including an ethical act in a novel by Henry James and anti anti Semitism The Parallax View not only expands i ek s Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes
