Emily MacGregor

Songs Of Hans Pfitzner A Guide And Study:

The Songs of Hans Pfitzner Richard Mercier, 1998-01-21 Mercier examines the 107 songs Hans Pfitzner wrote for voice and piano This work provides IPA pronunciation symbols translations into English and brief biographies of the poets associated with Pfitzner's songs Although not as famous as his contemporaries Hugo Wolf Gustav Mahler and Richard Strauss Pfitzner created a number of fine songs and here receives the critical attention he deserves *Song Carol* Kimball, 2006-12-01 Carol Kimball's comprehensive survey of art song literature has been the principal one volume American source on the topic Now back in print after an absence of several years this newly revised edition includes biographies and discussions of the work of 150 composers of various nationalities as well as articles on styles of various schools of composition **The Cambridge Companion to the Lied** James Parsons, 2004-07 Beginning several generations before Schubert the Lied first appears as domestic entertainment In the century that follows it becomes one of the primary modes of music making By the time German song comes to its presumed conclusion with Richard Strauss's 1948 *Vier letzte Lieder* this rich repertoire has moved beyond the home and keyboard accompaniment to the symphony hall This is a 2004 introductory chronicle of this fascinating genre In essays by eminent scholars this Companion places the Lied in its full context at once musical literary and cultural with chapters devoted to focal composers as well as important issues such as the way in which the Lied influenced other musical genres its use as a musical commodity and issues of performance The volume is framed by a detailed chronology of German music and poetry from the late 1730s to the present and also contains a comprehensive bibliography **Interwar Symphonies and the Imagination** Emily MacGregor, 2023-01-26 The symphony has long been entangled with ideas of self and value Though standard historical accounts suggest that composers' interest in the symphony was almost extinguished in the early 1930s this book makes plain the genre's continued cultural dominance and argues that the symphony can illuminate issues around space geography race and postcolonialism in Germany France Mexico and the United States Focusing on a number of symphonies composed or premiered in 1933 this book recreates some of the cultural and political landscapes of an uncertain historical moment a year when Hitler took power in Germany and the Great Depression reached its peak in the United States *Interwar Symphonies and the Imagination* asks what North American and European symphonies from the early 1930s can tell us about how people imagined selfhood during a period of international insecurity and political upheaval of expansionist and colonial fantasies scientised racism and emergent fascism *An Index to African-American Spirituals for the Solo Voice* Kathleen A. Abromeit, 1999-01-30 Spirituals were an intrinsic part of the African American plantation life and were sung at all important occasions and events This volume is the first index of African American spirituals to be published in more than half a century and will be an important research tool for scholars and students of African American history and music The first collection of slave songs appeared in 1843 without musical notation in a series of three articles by a Methodist Church missionary identified simply as c Collections that included musical

notation began appearing in the 1850s The earliest book length collection of spirituals containing both lyrics and music was published in 1867 and entitled Slave Songs of the United States Not since the 1930s with the publication of the Index to Negro Spirituals by the Cleveland Public Library has an index of spirituals been compiled The spirituals are neatly organized in four indexes a title index first line index alternate title index and a topical index that includes twenty major categories A bibliography of indexed sources serves as a guide for further research

Choral Arrangements of the African-American Spirituals Patricia J. Trice, 1998-02-12 Although the choral arrangements of the African American spirituals constitute the largest group of folk song arrangements in western literature they have received little scholarly attention This book provides the needed historical and stylistic information about the spirituals and the arrangements It traces the history and cultural roots of the genre through its inception and delineates the African and European characteristics common to the original folk songs and arrangements Ensembles that have perpetuated the growth of the spiritual arrangements from Fisk Jubilee Singers of the 1870s through those currently active are chronicled as well Musicians choral directors and scholars will welcome this first complete text on the African American spiritual genre Annotated listings of titles provide information choral directors need to make ensemble appropriate performance choices Arrangements indexed by title arranger and subject complement the accompanying biographies and repertoire information Well organized and thoroughly researched this text is a valuable addition to music choral multicultural and African American libraries

[A Dictionary for the Modern Singer](#) Matthew Hoch, 2014-04-28 Titles in the Dictionaries for the Modern Musician series offer both the novice and the advanced artist key information designed to convey the field of study and performance for a major instrument or instrument class as well as the workings of musicians in areas from conducting to composing Each dictionary covers topics from instrument parts to technique major works to key figures a must have for any musician's personal library A Dictionary for the Modern Singer is an indispensable guide for students of singing voice pedagogues and lovers of the art of singing In addition to classical singing genres and styles musical theatre and popular and global styles are addressed With an emphasis on contemporary practice this work includes terms and figures that influenced modern singing styles Topics include voice pedagogy voice science vocal health styles genres performers diction and other relevant topics The dictionary will help students to more fully understand the concepts articulated by their teachers Matthew Hoch's book fills a gap in the singer's library as the only one volume general reference geared toward today's student of singing An extensive bibliography is invaluable for students seeking to explore a particular subject in greater depth Illustrations and charts further illuminate particular concepts while appendixes address stage fright tips on practicing repertoire selection audio technology and contemporary commercial music styles A Dictionary for the Modern Singer will appeal to students of singing at all levels For professionals it will serve as a quick and handy reference guide useful in the high school or college library and the home teaching studio alike students and amateurs will find it accessible and full of fascinating information about the world of the

singing **Voice Secrets** Matthew Hoch,Linda Lister,2016-05-31 In Voice Secrets 100 Performance Strategies for the Advanced Singer Matthew Hoch and Linda Lister create order out of the chaotic world of singing They examine all aspects of singing including nontechnical matters such as auditioning performance anxiety score preparation practice performance tips business etiquette and many other important topics for the advanced singer Voice Secrets provides singers with a quick and efficient path to significant improvement both technically and musically It is the perfect resource for advanced students of singing professional performers music educators and avid amateur musicians The Music Secrets for the Advanced Musician series is designed for instrumentalists singers conductors composers and other instructors and professionals seeking a quick set of pointers to improve their work as performers and producers of music Easy to use and intended for the advanced musician contributions to Music Secrets fill a niche for those who have moved beyond what beginners and intermediate practitioners need **The Songs of Max Reger** Richard Mercier,Donald Nold,2008 This significant volume is the first to present in detail the entire prolific vocal repertoire of the late Romantic German composer Max Reger The Songs of Max Reger A Guide and Study begins with a brief introduction discussing the development of German Lied then journeys through this creative composer's works for voice and piano With many musical examples Richard Mercier and Donald Nold present a survey and discussion of Reger's lifetime of song output The book proceeds through the songs chronologically by opus number discussing each individually All entries include details pertinent to the song's particular poem its musical setting the date of musical composition the vocal range required and discussion of specific vocal and pianistic features The text also provides the original German poem word for word English translation of the German text IPA International Phonetic Alphabet pronunciation symbols for the German and a prose version of the poetic text in English for better appreciation of the piece An index and two appendixes complete this important reference arranging the songs by title and poet and supplying information on vocal range level of difficulty and gender Designed for the classical vocal music enthusiast and invaluable to the singer and vocal coach this book commemorating the 135th anniversary of the composer's birth will also appeal to accompanists Reger scholars and lovers of German Lieder and German art and culture **The Wind Ensemble Catalog** Jon A. Gillaspie,Marshall Stoneham,David L. Clark,1998-03-25 As a companion to The Wind Ensemble Sourcebook and Biographical Guide this catalog provides a comprehensive listing of wind ensemble works from 1650 to the present These two volumes will be completed with a third The Wind Ensemble Thematic Catalog 1700 1900 Representing more than 20 years of research through libraries monasteries and castles the authors used primary sources when possible rather than relying on secondary sources The authors collected a vast array of information from public and private international collections This catalog is an exhaustive guide to international wind ensemble collections The authors have been careful to match up various versions of the same work and for the first time arrangements an important and large part of the repertoire are dealt with in a systematic fashion Unique in its extensive documentation and reliance on primary sources The Wind Ensemble Catalog is an

important research tool for scholars and musicians
