Sose Alive 3:

SOSE Alive 3 Denis Young, Mark Gerald Easton, Peter Farrar, Jenny Brown, Stephen Chapman, Judy Mraz, Catherine Reid, Maggy Saldais, 2004 YEAR 9 SOSE ALIVE 3 is the third component of the Jacaranda Middle Years Project to be released. The SOSE Alive series is targeted at junior secondary students. The interactive learning package includes high interest Geography, History, and Commerce material to engage and challenge young adolescents, launching pads for SOSE students to build from their own knowledge to new areas of understanding, opportunities for students to extend thinking and explore independent learning opportunities. Remember, Understand, Communicate, Investigate, Create, and Connect activities engage different types of learners. The Middle Years school years 5-9 occur at a time when people are going through the greatest physical and personal development of the human life cycle. Children in this age group are seeking independence and are curious and adventurous. They seek interaction with adults and learn best through interactive activities rather than by listening. They are empowered by technology and use it with skill in their recreational and educational pursuits. What makes this program unique? Materials developed through the Jacaranda Middle Years Project provide active learning opportunities for middle years students through high interest material to engage, surprise, and challenge students, opportunities for students to build on prior knowledge and choices for students to explore independent learning opportunities, a wide range of activities to engage different learners, and build understanding learning through technology to utilise the capabilities of multimedia and exploit adolescents' curious and adventurous nature.

Larkley, Viola B. Maynard, 2008 This book presents new and important analyses on one of the most important topics throughout the world: innovation in education. It is in the field of education that the future of countries is determined and forged. It is also one of the most diverse and difficult fields in which change can be eventuated because of the complexity of the problems and their connection to society and its problems because the changes usually take time and politicians detest investments in the long term and because the field itself is changing so rapidly across a wide spectrum. **Journal of**
