of authors mainly teachers who had to face one of the hardest challenges in the last decades in a historic period where the promotion of social justice and equal opportunities through digital technologies and beyond is a key factor for democratic citizenship in our societies The Organising Committee the University of Florence and ATEE wish to warmly thank all the authors for their commitment and understanding which ensured the success of the Conference We hope this book could be not only a witness of these pandemic times but a hopeful sign for an equal and inclusive education in all countries *The springs of creativity, with an introd* Heinz Westman, [The Last Human Spring](#) L.
