

A photograph of a sunset over the ocean. The sky is a warm, hazy orange, and the water below is dark with white-capped waves. The horizon line is visible in the distance.

I'll admit that my garden now grows hope in lavish profusion, leaving little room for anything else. I suppose it has squeezed out more practical plants like caution and common sense. Still, though, hope does not flourish in every garden, and I feel thankful it has taken root in mine.

The Regency Years Robert Morrison, 2019-04-30 An Economist History Book of the Year Elegant entertaining and frequently surprising Miranda Seymour New York Times Book Review The Victorians are often credited with ushering in our current era yet the seeds of change were planted during the earlier Regency period 1811-1820 when the profligate Prince of Wales the future king George IV succeeded his father Around the Prince Regent surged a society of contrasts evangelicalism and hedonism elegance and brutality exuberance and despair Capturing the Napoleonic Wars the rise of artists the Shelleys Austen Keats Byron Turner scientists and inventors Stevenson Davy Faraday and a cast of dissident journalists military leaders and fashionistas Robert Morrison captivantly illuminates the ways this period shaped the modern world **The Life and Administration of Robert Banks** Charles Duke Yonge, 1868 **Queenship in Britain, 1660-1837** Clarissa Campbell Orr, 2002 Queenship in Britain 1660-1837 looks at the lives of successive Queens Princesses of Wales and royal

daughters and considers how they used their powers of patronage and operated within the confines of royal family politics. With contributions from an international group of scholars this book brings together new approaches in gender history and court studies to present a re-evaluation of this previously neglected area in the study of the British monarchy. An explanation of these new approaches is contained in a substantial introduction. While the essays perform detailed discussions on a variety of more specific subjects from how the foreign and Catholic wives of the restored Stuarts coped with a libertine court and a Protestant nation to the travails of Princesses of Wales the marriage options of royal daughters and the question of whether Queen Adelaide wife of William IV was a harmless philanthropist re-establishing royal respectability or a real political influence behind the throne.

From Enlightenment to Romanticism Ian L. Donnachie, Carmen Lavin, 2004-04-08 This is the second of two anthologies designed to form an interdisciplinary exploration of the changes and transitions in European culture between 1780 and 1830. The collection of extracts in this anthology provide primary and secondary sources on industry and changing landscapes, new forms of knowledge, new conceptions of art and the artist and the exotic and the Oriental. Each selection is accompanied by a detailed introduction explaining the context and significance of the sources. Extracts in the anthology stimulate questions rather than providing reassuring answers but provide vital insights to the major events, movements and personalities of the time. This volume provides an invaluable resource for all students of European culture in the period. A companion volume offers readings on the death of the Old Regime, the Napoleonic phenomenon and slavery, religion and reform.

Re-Presenting the Metropolis Dana Arnold, 2017-07-05 The evolution of an urban self-consciousness in London in the early nineteenth century played a fundamental role in the shaping of the city. In this volume Dana Arnold explores the responses to the city among the urban bourgeoisie and their influence on the experience and development of London. Each of the chapters re-presents the metropolis through a thematic consideration of the urban infrastructure and architecture including public open spaces, new roads and bridges, public monuments and buildings for show including museums, galleries and townhouses. These discrete walks around London cohere into a kaleidoscopic view of the metropolis as a continually evolving entity. The nature and perception of urban experience and social life are mapped against this changing image of London, revealing at once the modernity of the metropolis and the importance of the past, especially antiquity, to the construction of this transient present. Evidence of attitudes towards the metropolis is drawn from a range of contemporary visual and written sources including commentaries, guidebooks, literature and parliamentary reports and enquiries. The study of sensory responses to the city allows the exploration of the dynamic between city and society and a broader cultural understanding of urban form. London is re-presented as a matrix of key architectural, social and cultural themes and as the emblematic expression of different kinds of identities relating to gender, class and nationhood.
