## **Squitter Wits And Muse Haters:**

**Squitter-wits and Muse-haters** Peter C. Herman,1996 This study offers an approach toward Renaissance literary production demonstrating that antipoetic sentiment previously dismissed as an unimportant aspect of Tudor Stuart literary culture constituted a significant shaping presence in Sidney Spenser and Milton

**Squitter-wits and Muse-haters** Peter C. Herman,1990 *Imagination and Politics in Seventeenth-Century England* Todd Butler,2017-03-02 Todd Butler here proposes a new epistemology of early modern politics one that sees as did writers of the period human thought as a precursor to political action By focusing not on reason or the will but on the imagination Butler uncovers a political culture in seventeenth century England that is far more shifting and multi polar than has been previously recognized Pursuing the connection between individual thought and corporate political action he also charts the existence of a discourse that grounds modern scholarly interests in the representational nature of early modern politics its images rituals and entertainment within a language early moderns themselves used Through analysis of a wide variety of seventeenth century texts including the writings of Francis Bacon and Thomas Hobbes Caroline Court masques and the poetry and prose of John Milton he reveals a society deeply concerned with the fundamentally imaginative nature of politics It is a strength of the study that Butler looks at unusual or slighted texts by these authors alongside their more canonical texts The study also ranges widely across disciplines engaging literature alongside both natural and political philosophy By emphasizing the human mind rather than human institutions as the primary site of the period s political struggles this study reframes critical understandings of seventeenth century English politics and the texts that helped define them

**Disciplinary Measures from the Metrical Psalms to Milton** Kenneth J.E. Graham,2016-02-26 *Disciplinary Measures from the Metrical Psalms to Milton* studies the relationship between English poetry and church discipline in four carefully chosen bodies of poetry written between the Reformation and the death of John Milton Its primary goal is to fill a gap in the field of Protestant poetics which has never produced a study focused on the way in which poetry participates in and reflects on the post Reformation English Church s attempts to govern conduct Its secondary goal is to revise the understandings of discipline which social theorists and historians have offered and which literary critics have largely accepted It argues that knowledge of the early modern culture of discipline illuminates some important poetic traditions and some major English poets and it shows that this poetry in turn throws light on verbal and affective aspects of the disciplinary process that prove difficult to access through other sources challenging assumptions about the means of social control the structures of authority and the practical implications of doctrinal change More specifically *Disciplinary Measures* argues that while poetry can help us to understand the oppressive potential of church discipline it can also help us to recover a more positive sense of discipline as a spiritual cure

*Pangs of Love and Longing* Anders Cullhed,Carin Franzén,Anders Hallengren,2014-10-16 The complex relationship between psychic structures social norms and aesthetic representations is a challenge for every analysis of the historical manifestations of

human desire Pangs of Love and Longing Configurations of Desire in Premodern Literature sets out to provide a deeper understanding of this relation by an assessment of linguistic and artistic configurations of desire in European literature from Antiquity to the Early Modern period The aim is to explore historic continuities and ruptures in attitudes towards sexuality pleasures and bodies as these are represented in a variety of cultural forms in order to demonstrate the plurality of premodern desire and ultimately to offer fresh perspectives on our present reality The seventeen scholars participating in the anthology bring together theories and assessments from different areas of the Humanities German French Italian Spanish English and Comparative Literature History of Ideas and of Art Theology Philosophy and Gender Studies They are all engaged in cross disciplinary activities at universities in Sweden Norway and Denmark and they all participate in the Scandinavian network Configurations of Desire in Premodern Literature initiated in 2010 'Ungainefull Arte' Richard A. McCabe,2016-02-05 From antiquity to the Renaissance the pursuit of patronage was central to the literary career yet relationships between poets and patrons were commonly conflicted if not antagonistic necessitating compromise even as they proffered stability and status Was it just a matter of speaking lies to power The present study looks beyond the rhetoric of dedication to examine how traditional modes of literary patronage responded to the challenge of print as the economies of gift exchange were forced to compete with those of the marketplace It demonstrates how awareness of such divergent milieux prompted innovative modes of authorial self representation inspired or frustrated the desire for laureation and promoted the remarkable self reflexivity of Early Modern verse By setting English Literature from Caxton to Jonson in the context of the most influential Classical and Italian exemplars it affords a wide comparative context for the reassessment of patronage both as a social practice and a literary theme **The Catholic Imaginary and the Cults of Elizabeth, 1558-1582** Stephen Hamrick,2016-12-05 Stephen Hamrick demonstrates how poets writing in the first part of Elizabeth I s reign proved instrumental in transferring Catholic worldviews and paradigms to the cults and early anti cults of Elizabeth Stephen Hamrick provides a detailed analysis of poets who used Petrarchan poetry to transform many forms of Catholic piety ranging from confession and transubstantiation to sacred scriptures and liturgical singing into a multivocal discourse used to fashion refashion and contest strategic political religious and courtly identities for the Queen and for other Court patrons These poets writers previously overlooked in many studies of Tudor culture include Barnabe Googe George Gascoigne and Thomas Watson Stephen Hamrick here shows that the nature of the religious reformations in Tudor England provided the necessary contexts required for Petrarchanism to achieve its cultural centrality and artistic complexity This study makes a strong contribution to our understanding of the complex interaction among Catholicism Petrarchanism and the second English Reformation Increase and Multiply David Glimp,2003 *Lying in Early Modern English Culture* Andrew Hadfield,2017-09-07 Lying in Early Modern English Culture is a major study of ideas of truth and falsehood in early modern England from the advent of the Reformation to the aftermath of the failed Gunpowder Plot The period is characterised by

panic and chaos when few had any idea how religious cultural and social life would develop after the traumatic division of Christendom While many saw the need for a secular power to define the truth others declared that their allegiances belonged elsewhere Accordingly there was a constant battle between competing authorities for the right to declare what was the truth and so label opponents as liars Issues of truth and lying were therefore a constant feature of everyday life and determined ideas of individual identity politics speech sex marriage and social behaviour as well as philosophy and religion This book is a cultural history of truth and lying from the 1530s to the 1610s showing how lying needs to be understood in action as well as in theory Unlike most histories of lying it concentrates on a series of particular events reading them in terms of academic theories and more popular notions of lying The book covers a wide range of material such as the trials of Ann Boleyn and Thomas More the divorce of Frances Howard and the murder of Anthony James by Annis and George Dell works of literature such as Othello The Faerie Queene A Mirror for Magistrates and The Unfortunate Traveller works of popular culture such as the herring pamphlet of 1597 and major writings by Castiglione Montaigne Erasmus Luther and Tyndale

**The Making of Sir Philip Sidney** Edward Berry,1998-12-15 Does a poet make himself or do his culture and his fiction make him Sir Philip Sidney is one of the most popular and enduring of Elizabethan authors and one of those most preoccupied with the relationship between self society and art Edward Berry s *The Making of Sir Philip Sidney* explores how Sidney made or created himself as a poet by making representations of himself in the roles of some of his most literary creations Philisides Astrophil and the intrusive persona of the *Defence of Poetry* Focusing on the significance of these and other self representations throughout Sidney s career Berry combines biography social history and literary criticism to achieve a carefully balanced portrayal of the poet s life and work This is a book that makes a significant contribution to our understanding of Sidney and is likely to appeal to both students and scholars of Sidney as well as to those wishing to understand the cultural events that shaped this central figure of the English Renaissance

[Intricate Movements](#) Bradley Tuggle,2019-03-07 Renaissance humanism takes as one of its subjects for inquiry the category of the human itself As *Intricate Movements* Experimental Thinking and Human Analogies in Sidney and Spenser shows late sixteenth century English poets found some remarkably radical ways to interrogate and redefine the status of humans The recent vogue for posthumanist theory encourages a view of non human objects and animals in Renaissance literature as pathways to essentially anti humanist thought On the contrary this book argues that Sidney Spenser and their contemporaries employ animals earth buildings and fictions as analogies employed toward a better understanding of what makes humans a special category both ontologically and ethically Horses and riders are studied by Sidney as a way to understand readers and writers the 1580 Dover Straits Earthquake provides Spenser and Gabriel Harvey an opportunity to explore human emotion liturgical spaces are represented by Sidney and Spenser in order to reassess human community and fictional persons are interrogated by Spenser as models for human

interpersonal epistemology This volume seeks to return critical assessments of the period's engagement with the non-human back to human concerns Focusing on several early modern analogies between human and non-human entities Intricate Movements argues Sidney's and Spenser's thinking about the human is both radically experimental and ultimately humane

**The Intellectual Culture of Puritan Women, 1558-1680** J. Harris, E. Scott-Baumann, 2010-11-24 This collection of essays by leading scholars in the field reveals the major contribution of puritan women to the intellectual culture of the early modern period It demonstrates that women's roles within puritan and broader communities encompassed translating and disseminating key texts producing an impressive body of original writing

*Destabilizing Milton* P. Herman, 2016-04-30 *Destabilizing Milton* challenges the widely accepted view of Milton as a poet of absolute unquestioning certainty In *Paradise Lost* Milton confronts the failure of the Revolution by creating a poem that refuses to grant the reader any interpretive stability or certainty Doubts can no longer be contained and concepts once marked by a fundamental immobility now seem unstable at best *Paradise Regained* and *Samson Agonistes* equally reflect Milton's deep ambivalences after the collapse of the Republic Far from confirming his earlier ideals in his later poetry Milton subjects his culture's most cherished beliefs such as the goodness of God to withering scrutiny while refusing the comfort of orthodox answers

*The Drama of Complaint* Emily Shortslef, 2023-05-12 *The Drama of Complaint* Ethical Provocations in Shakespeare's Tragedy is the first book-length study of complaint in Shakespearean drama Emily Shortslef makes two main arguments One is that poetic forms of complaint expressions of discontent and unhappiness operate in and across the period's literary and nonliterary discourses as sites of thought about human flourishing the subject of ethical inquiry The other is that Shakespearean configurations of these

ubiquitous forms in theatrical scenes of complaint model new ways of thinking about ethical subjectivity or ways of desiring acting and living consonant with notions of the good life The Drama of Complaint develops these interlocking arguments through five chapters that demonstrate the thinking materialized in and through five prolific forms of complaint existential judicial spectral female and deathbed Built around some of the most electrifying scenes in Shakespearean tragedy each chapter is a case study that identifies and theorizes one of these forms of complaint delineates a matrix of ethical thought that structures that form and develops a new reading of a Shakespearean tragedy to which that form of complaint and those ethical questions are integral

**The Politics of Melancholy from Spenser to Milton** Adam Kitzes,2017-09-25 During the so called Age of Melancholy many writers invoked both traditional and new conceptualizations of the disease in order to account for various types of social turbulence ranging from discontent and factionalism to civil war Writing about melancholy became a way to explore both the causes and preventions of political disorder on both specific and abstract levels Thus at one and the same moment a writer could write about melancholy to discuss specific and ongoing political crises and to explore more generally the principles which generate political conflicts in the first place In the course of developing a traditional discourse of melancholy of its own English writers appropriated representations of the disease often ineffectively in order to account for the political turbulence during the civil war and Interregnum periods

**Envisioning an English Empire** Robert Appelbaum,John Sweet,2005-01-25 Envisioning an English Empire examines the founding of Jamestown in 1607 within its global political and cultural contexts

**Magical Imaginations** Genevieve Guenther,2012-01-30 In the English Renaissance poetry was imagined to inspire moral behaviour in its readers but the efficacy of poetry was also linked to conjuration the theologically dangerous practice of invoking spirits with words Magical Imaginations explores how major writers of the period including Spenser Marlowe and Shakespeare negotiated this troubling link between poetry and magic in their attempts to transform readers and audiences with the power of art Through analyses of texts ranging from sermons and theological treatises to medical tracts and legal documents Genevieve Guenther sheds new light on magic as a cultural practice in early modern England She demonstrates that magic was a highly pragmatic even cynical endeavor infiltrating unexpected spheres including Elizabethan taxation policy and Jacobean political philosophy With this new understanding of early modern magic and a fresh context for compelling readings of classic literary works Magical Imaginations reveals the central importance of magic to English literary history
