McAulay, 1973 *Re-Imagining Citizenship Education* Pablo C. Ramirez, 2023-06-01 In this special edition we call attention to the role of Critical Multicultural Citizenship Education CMCE in schools societies and global contexts The fundamental goal of CMCE is to increase not only the students awareness of and participation in the political aspects of democracy but also students abilities to create and live in an ethnically diverse and just community Global migration and increasing diversity within nations are challenging conceptions of citizenship all over the world The percentage of ethnic minorities in nation states throughout the world has increased significantly within the past 30 years The United States Census for example projects that 50% of the population will consist

of culturally linguistically racially ethnic and religiously diverse groups by 2050 With an increase growth of diversity within national borders issues concerning educational equity equality and civic engagement have not always been well attended to in educational and societal contexts Growing ethnic diversity in schools society has not automatically led to a dismantling of persistent educational barriers or structural inequalities In the past decade culturally ethnically and linguistically diverse populations have faced barriers impacting their rights as citizens in the United States and international contexts Citizenship and the rights that are associated with being a citizen are re framed when culturally ethnically and linguistically students seek equality In 2020 many urban cities in the United States witnessed Latino Black youth demonstrate peacefully guided by social justice and their civic responsibilities Similarly in international contexts students have demonstrated civil disobedience by expressing concerns about their rights as citizens and the disempowerment of communities We emphatically believe that students in K 12 settings must begin to understand their rights as citizens and also advocate for the rights of others in order for communities in the U S and international contexts to achieve democracy

Teaching Culturally and Linguistically Relevant Social Studies for Emergent Bilingual and Multilingual Youth Ashley Taylor Jaffee, Cinthia Salinas, Wayne Journell, 2024 In recent years social studies scholars have pushed to consider critical ways of thinking about curriculum particularly challenging what we teach and how we teach Authors in this book however speak specifically about culturally and linguistically accessing and engaging with social studies and citizenship education curricula and instruction Through this project the notion of inclusiveness and relevance centers on culture and language that emphasize the civic identity agency and membership of communities most often marginalized by social studies and civic instruction public schools and U S democratic society We hope this collection of chapters acts as a resource to address pedagogical sociocultural and civic wonderings by highlighting ways of using language as an asset and means in the social studies classroom This book presents new pedagogical ideas theoretical frameworks and research methodologies on teaching culturally and linguistically relevant social studies with and for emergent bilingual and multilingual EBML youth The compilation of chapters seeks to forefront scholarship and teaching that centers the needs interests and experiences of EBML youth in social studies education Chapter authors draw from multiple intersecting critical and interdisciplinary frameworks that center culture and language to inform and write about social studies taking place inside outside and beyond the classroom that engages youth in varying disciplinary and non disciplinary spaces across social studies education e g community geography family civics history The chapters also challenge oppressive structures policies and practices that marginalize EBML youth The book is intended for Pre K 12 teachers and administrators social studies teacher educators and researchers and pre service social studies teachers to actively read reflect on and strive to enact the work shared by chapter authors
