Conjuring Culture Theophus H. Smith, 1995-11-09 This book provides a sophisticated new interdisciplinary interpretation of the formulation and evolution of African American religion and culture Theophus Smith argues for the central importance of conjure a magical means of transforming reality in black spirituality and culture Smith shows that the Bible the sacred text of Western civilization has in fact functioned as a magical formulary for African Americans Going back to slave religion and continuing in black folk practice and literature to the present day the Bible has provided African Americans with ritual prescriptions for prophetically re envisioning and thereby transforming their history and culture In effect the Bible is a conjure book for prescribing cures and curses and for invoking extraordinary and Divine powers to effect changes in the conditions of human existence and to bring about justice and freedom Biblical themes symbols and figures like Moses the Exodus the Promised Land and the Suffering Servant as deployed by African Americans have crucially formed and reformed not only black culture but American society as a whole Smith examines not only the religious and political uses of conjure but its influence on black aesthetics in music drama folklore and literature The concept of conjure he shows is at the heart of an indigenous and still vital spirituality with exciting implications for reformulating the next generation of black studies and black theology Even more broadly Smith proposes conjuring culture can function as a new paradigm for understanding Western religious and cultural phenomena generally

God's Ambassadors E. Brooks Holifield, 2007-09-25 In God's Ambassadors E Brooks

Holifield masterfully traces the history of America's Christian clergy from the seventeenth to the twenty first century analyzing the changes in practice and authority that have transformed the clerical profession Challenging one sided depictions of decline in clerical authority Holifield locates the complex story of the clergy within the context not only of changing theologies but also of transitions in American culture and society The result is a thorough social history of the profession that also takes seriously the theological presuppositions that have informed clerical activity With alternating chapters on Protestant and Catholic clergy the book permits sustained comparisons between the two dominant Christian traditions in American history At the same time *God's Ambassadors* depicts a vocation that has remained deeply ambivalent regarding the professional status marking the other traditional learned callings in the American workplace Changing expectations about clerical education as well as enduring theological questions have engendered a debate about the professional ideal that has distinguished the clerical vocation from such fields as law and medicine The American clergy from the past four centuries constitute a colorful diverse cast of characters who have in ways both obvious and obscure helped to shape the tone of American culture For a well rounded narrative of their story told by a master historian *God's Ambassadors* is the book to read

The Old Religion in a New World Mark A. Noll, 2002 A foremost historian of religion chronicles the arrival of Christianity in the New World tracing the turning points in the development of the immigrant church which have led to today's distinctly American faith

United by Faith Curtiss Paul DeYoung, Michael O. Emerson, George A. Yancey, 2004 Presents an argument for multiracial Christian congregations in breaking down racial barriers in the United States

Baptists and the Christian Tradition Matthew Y. Emerson, Christopher W. Morgan, R. Lucas Stamps, 2020-06-15 In *Baptists and the Christian Tradition* editors Matthew Emerson, Christopher Morgan and Lucas Stamps compile a series of essays advocating Baptist catholicity This approach presupposes a critical but charitable engagement with the whole church both past and present along with the desire to move beyond the false polarities of an Enlightenment based individualism on the one hand and a pastiche of postmodern relativism on the other

Gospel of Disunion Mitchell Snay, 2014-02-01 The centrality of religion in the life of the Old South the strongly religious nature of the sectional controversy over slavery and the close affinity between religion and antebellum American nationalism all point toward the need to explore the role of religion in the development of southern sectionalism In *Gospel of Disunion* Mitchell Snay examines the various ways in which religion adapted to and influenced the development of a distinctive southern culture and politics before the Civil War adding depth and form to the movement that culminated in secession From the abolitionist crisis of 1835 through the formation of the Confederacy in 1861 Snay shows how religion worked as an active agent in translating the sectional conflict into a struggle of the highest moral significance At the same time the slavery controversy sectionalized southern religion creating separate institutions and driving theology further toward orthodoxy By establishing a biblical sanction for slavery developing a slaveholding ethic for Christian masters and demonstrating the viability of separation from the North through the

denominational schisms of the 1830s and 1840s religion reinforced central elements in southern political culture and contributed to a moral consensus that made secession possible

The Making of New World Slavery Robin

Blackburn,2020-05-05 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West

Mamiya,1990-11-07 A nongovernmental survey of urban and rural churches of black communities based on a ten year study

The Roman Catholic Church - A Critical Appraisal Hendrick Park,2008-03 The Roman Catholic Church is the largest

denomination with 1.1 billion adherents Recently the pope Benedict XVI reasserted that the Catholic Church is the only true church founded by Christ Today there is a pervasive indifference as to the question what is the true Christianity This is a serious situation because there are numerous false or only partly true versions of Christianity The author of this book attempts a critical appraisal of the Roman Catholic Church by the criteria of the Bible and history The conclusion he reached is that the Catholic Church is a perversion of the Christianity of the New Testament The author believes that he has substantiated the proposition that there are many unbiblical pagan elements in the Church To give one example the monarchical papacy and the authoritarian church structure developed after the model of the authoritarian government of the ancient Roman Empire No wonder that its official name is the Roman Catholic Church A theologian and a minister Received a doctorate in systematic theology from the University of Toronto He did the ministerial work for 17 years in the United Church of Canada Took early retirement in 1990 to study and write books which is he feels the talent and his main vocation he has received from God He respects the Bible as containing the revealed word of God According to the prophets of God justice and mercy and the pure preservation of the true religion of God are God's two major concerns He believes that God's major concerns should be all Christians major concerns as well The Roman Catholic Church A Critical Appraisal was written from that perspective in order to attest to the true religion of God and to keep Christians from heading onto the wrong path

Frederick Douglass's Curious Audiences Terry Baxter, 2004-05 This book attempts to answer a fundamental question How did Douglass manage to persuade anyone about the evils of slavery and even impress viewers with his personal qualities when his speeches were commonly considered mere entertainment in the same category as Barnum's circus acts In answering this question Terry Baxter provides a means of understanding the positive responses of Frederick Douglass's white audiences and African American celebrities roles as both objects of consumption and vehicles for social change
