Leading scholars discuss major dystopian traditions including cyberpunk and feminist utopian dystopian narratives as seen in works such as Octavia Butler's novel *Xenogenesis* and the film *Fight Club*. These essays draw out the ways in which contemporary science fiction literature and film has served as a prophetic vehicle for writers with ethical and political concerns.

Separate sections look at the long-running resistance against slavery and the black civil rights movements in the Americas and the Caribbean, with a comparative chronology of apartheid in South Africa. Supported by biographies of over 100 key individuals and a full glossary providing definitions of crucial terms, expressions, ideas, and events, this is required reading for anyone interested in the historical experience of slavery.
