over several centuries from Lucilius to Juvenal not as mere generic adjustments that reflect the personal preferences of its authors but as separate chapters in a special generically encoded story of Rome's lost and much lionized Republican identity. Freedom exists in performance in ancient Rome; it is a spoken entity. As a result, satire's programmatic shifts from open to understated to cryptic and so on can never be purely literary and apolitical in focus and/or tone. In *Satires of Rome*, Professor Freudenburg reads these shifts as the genre's unique way of staging and agonizing over a crisis in Roman identity. Satire's standard genre question in this book becomes a question of the Roman self. **The Intellectual Observer**, 1864

**Samuel of the Nations** Norman Jay Landerman-Moore, Occasionally unknown individuals engage in momentous events. They associate with iconic people standing at the heart of nations. Samuel Saunders is one of these. Beginning at age 15 and continuing until his demise, Samuel of the Nations chronicles a lad engaged in events dramatically affecting people and nations on a continental scale. Based on first-hand accounts and historical records, the reader will experience through Samuel's eyes decisive clashes and convulsion of cultures during the 18th and 19th centuries. Details of tribulation in the Caribbean, American Colonies, and Canada, and among Native American tribes become personal testimonies of truth. It is the story of real people engaged in events that set monumental changes in motion within the western hemisphere. Changes affecting the world well into the modern era. Embraced as a son by Daniel Boone, Samuel helped blaze the Wilderness Road and construct Boone's Fort. Near there, Samuel and his friend William McQuinney were attacked by Shawnee warriors. William was killed, while Samuel, taken prisoner, was adopted into the Shawnee Nation, launching adventures he could never have anticipated. After three years in research, the author Norman Jay Landerman-Moore set about writing this creative non-fiction novel, bringing human drama, adventure, and national movements to greater heights of understanding while revealing a love story between an English lad and a Shawnee girl that began generations of some incredible people. It all began in Cardington, Bedfordshire, England. The year was 1760. *Five-minute series* Henry Thorne Sell, 1926. Barclay's Universal English Dictionary, etc. (The Improved London Edition of Barclay's Dictionary, superbly embellished.) With maps James Barclay, 1835.

**Echoes of a New Day** Scott C. Anderson, 2019-08-17. An advanced human race has finally ended their civilization. A machine race was created by the scientific community to pick up the pieces. Repopulated after 900 years, the machine would have to live with the men and women of a new world. Optimism leads to a true rebirth. Unfortunately, people are people, and after several generations, the robotic race is found to be hated and easy to discard. Hunted, the bots find a way to get off planet and search for a new life of service. A Dora interstellar trader accepts the challenge to find a situation that will allow life, even robotic life, to survive. Proceedings of the United States National Museum, United States National Museum, 1908.
