Engaging Bonhoeffer

Matthew D. Kirkpatrick, 2016-06-03 *Engaging Bonhoeffer* documents the extraordinary impact of Dietrich Bonhoeffer's life and writing on later thought. Despite his lasting legacy, little substantial scholarship has been conducted in this area. In this magisterial collection, leading international scholars fill this striking gap and critically demonstrate the ways in which Bonhoeffer has been one of the most original, inspirational, and provocative writers of the twentieth century. Bonhoeffer's work has proved foundational for a wide variety of thinkers and movements across such areas as ecclesiology, Christology, spirituality, ethics, hermeneutics, phenomenology, epistemology, and systematic theology, more generally. Whether one considers his writings to have been faithfully interpreted, critically adopted, or justifiably rejected, *Engaging Bonhoeffer* describes those who have engaged with Bonhoeffer's work, been inspired by his actions, and found a way to express and explain their own ideas through interacting with his life and thought. In addition to shedding light on the different theological trajectories that Bonhoeffer's work may forge, this challenging volume offers a critical window through which to view and appreciate the ideas of many leading voices of modern theology.

Christian Life and Practice Owen C.

Thomas, 2009-01-01 This book is a study of the Christian life and the practice of Christians and the church from an Anglican perspective. It begins with an analysis and explication of the structure and process of the Christian life before God in the church and the world, involving a five-fold rule of life and the relation of this to spiritual direction. This is followed by an analysis and critique of the current spirituality movement which arose in the 1970s and which has come to dominate and mislead the churches. A sequel to the latter explains the origin of the spirituality movement in the current Romantic movement that arose in the 1960s and has influenced all aspects of our culture with ambiguous results. Next, there is a critique of contemporary parish ministry as practiced in residential parishes that at best ministers only to the private lives of its members, followed by a fictional story of such a residential parish that suggests a new departure in parish ministry. Then, there is a critique of preaching in the Episcopal Church that is generally considered to be poor, and a proposal of a way to overcome this. The concluding three chapters treat a fundamental problem in our approach to private prayer and a way to resolve this, a proposal for a way to overcome the current impasse in the Anglican Communion concerning homosexuality, and a meditation on the responsibility of Christians in public life.

Theological Radicalism and Tradition Howard E.

Root, 2017-10-30 The limits of radicalism are those which end not in chaos but in the breaking of fresh ground. Howard E. Root. Previously unpublished and only recently rediscovered by Dr. Christopher R. Brewer in an uncatalogued box in the archives of Lambeth Palace Library. Canon Howard E. Root's 1972 Bampton Lectures, *The Limits of Radicalism*, have to do with nothing less than what theology is, a topic no less relevant today than it was in 1972. Against the radical reductionism of his time, Root defended the integrity of theology and theological truth. Advocating a backward-looking radicalism, he thought that tradition

should display recognisable continuity and yet at the same time against reductionistic tendencies that it might be enriched and enlarged via a wide variety of additive imagery including though not limited to poetry and pop art music and even television We must begin where we are said Root for we cannot in the manner of Leonard Hodgson think ourselves into the minds and feelings of men 2000 years ago In this volume which begins with a substantial mostly biographical introduction Dr Brewer argues that Root a backward looking radical who defended metaphysics and natural theology and insisted that theologians look to the arts as theological resources anticipates the work of David Brown and others concerned with tradition and imagination relevance and truth A fascinating glimpse into the recent history of British Christianity Root's lectures as well as the related appendices are essential reading for theologians interested in the dynamics of a developing tradition and the theme of openness as well as those with a particular interest in 1960s Cambridge radicalism and the British reception of the Second Vatican Council *F D Maurice and the Crisis of Christian Authority* Jeremy Morris, 2005-03-17 F D Maurice was a leading 19th century Anglican theologian and social commentator This study argues that his work was driven above all by a concern to reinvigorate Anglican ecclesiology and to promote economical breadth of spirit that could transform the Church of England's relations with other Christian traditions **The Growth of Religious Diversity: Traditions** Gerald
