Sounds Forms And Uses Of Italian An Introduction To Italian Linguistics:

The Sounds, Forms, and Uses of Italian Gianrenzo P. Clivio, Marcel Danesi, 2000-01-01 Filling a major gap in the curriculum of undergraduate and graduate programs in Italian linguistics this is a text on Italian linguistics that clearly presents all of the key concepts in a form designed specifically for English speaking students Italian-Canadian Narratives of Return Michela Baldo, 2019-01-04 This book examines the concept of translation as a return to origins and as restitution of lost narratives and is based on the idea of diaspora as a term that depicts the longing to return home and the imaginary reconstructions and reconstitutions of home by migrants and translators The author analyses a corpus made up of novels and a memoir by Italian Canadian writers Mary Melfi Nino Ricci and Frank Paci examining the theme of return both within the writing itself and also in the discourse surrounding the translations of these works into Italian These reconstructions are analysed through the lens of translation and more specifically through the notion of written code switching understood here as a fictional tool which symbolizes the translational movements between different points of view This book will be of particular interest to students and scholars of translation and interpreting migration studies and Italian and diasporic writing

Casini,2020-11-03 In *Language Creativity A Semiotic Perspective* Simone Casini aims to frame the concept of creativity within a linguistic dimension by developing a theoretical reflection with constant references to contact languages and to the educational plan Semiotic creativity abandons the condition of the linguistic property inter pares and rises to the rank of theoretical and first principle by which languages define themselves function and interact in the negotiation of meaning in relation to the social uses Casini considers creativity as a premise for the rule changing of boundaries of meaning and creation of language and meaning The work progresses starting from the historical critical concept of creativity discussing the most philosophical and linguistic theories in the North American and European context **Global Encounters** Iris
