Sounds Irish The Irish Language In Australia:

Sounds Irish Dymphna Lonergan, 2004 This book traces Irish language words phrases and references in Australian newspapers poetry novels and in Australian English A detailed glossary of Irish words in Australian writing shows just how important this contribution to Australian English has been **Irish South Australia** Susan Arthure, Fidelma Breen, Stephanie James, Dymphna Lonergan, 2019-01-17 Its capital is named after German born Queen Adelaide its main street after her English husband King William IV so it is not surprising that little is known about South Australia's Irish background However the first European to discover Adelaide's River Torrens in 1836 was Cork born and educated George Kingston who was deputy surveyor to Colonel Light the river was named in turn for Derryman Colonel Torrens Chairman of the South Australian Colonisation Commission Adelaide's first judge and first police commissioner were immigrants from Kerry and Limerick Irish South Australia charts Irish settlement from as far north as Pekina to the state's south east and Mount Gambier It follows the diverse fortunes of the Irish born elite such as George Kingston and Charles Harvey Bagot as well as doctors farmers lawyers orphans parliamentarians pastoralists and publicans who made South Australia their home with various shades of political and religious beliefs Anglicans Catholics Dissenters Federationists Freemasons Home Rulers nationalists and Orangemen Irish markers can be found in South Australian archaeology architecture geography and history Some of these are visible in the hundreds of Irish place names that dot the South Australian landscape such as Clare Donnybrook Dublin Kilkenny Navan Rostrevor Tipperary and Tralee as Tarlee The book's editors are twentieth century Irish immigrants from Dublin Dymphna Lonergan Portadown Fidelma Breen Trim Susan Arthure and by descent from eight Irish born Stephanie James *Scottishness and Irishness in New Zealand since 1840* Angela McCarthy, 2017-02-01 This book examines the distinctive aspects that insiders and outsiders perceived as characteristic of Irish and Scottish ethnic identities in New Zealand When how and why did Irish and Scots identify themselves and others in ethnic terms What characteristics did the Irish and the Scots attribute to themselves and what traits did others assign to them Did these traits change over time and if so how Contemporary interest surrounding issues of ethnic identities is vibrant In countries such as New Zealand descendants of European settlers are seeking their ethnic origins spurred on in part by factors such as an ongoing interest in indigenous genealogies the burgeoning appeal of family history societies and the booming financial benefits of marketing ethnicities abroad This fascinating book will appeal to scholars and students of the history of empire and the construction of identity in settler communities as well as those interested in the history of New Zealand *Australian English Reimagined* Louisa Willoughby, Howard Manns, 2019-11-01 Australian English is perhaps best known for its colourful slang but the variety is much richer than slang alone This collection provides a detailed account of Australian English by bringing together leading scholars of this English variety These scholars provide a comprehensive overview of Australian English's distinctive features and outline cutting edge research into the variation and change of English in Australia Organised thematically this volume

explores the ways in which Australian English differs from other varieties of English as well as examining regional social and stylistic variation within the variety. The volume first explores particular structural features where Australian English differentiates itself from other English varieties. There are chapters on phonetics and phonology, socio-phonetics, lexicon and discourse pragmatics as these elements are core to understanding any variety of English especially within the World Englishes paradigm. It then considers what are arguably the most salient aspects of variation within Australian English and finally focuses on historical attitudinal and planning aspects of Australian English. This volume provides a thorough account of Australian English and its users as complex, diverse and worthy of study. Perhaps more importantly, this volume's scholars provide a reimagining of Australian English and the paradigm through which future scholars may proceed. **Irish**

Contemporary Landscapes in Literature and the Arts M. Mianowski, 2011-12-06 Looking at representations of the Irish landscape in contemporary literature and the arts, this volume discusses the economic, political and environmental issues associated with it, questioning the myths behind Ireland's landscape from the first Greek descriptions to present-day post-Celtic Tiger architecture. **Apocryphal and Literary Influences on Galway Diasporic History** Gay Lynch, 2010-10-12

Apocryphal and Literary Influences on Galway Diasporic History establishes that apocryphal stories in all their transformations contribute to collective memory. Common characteristics frame their analysis: irreducible and enduring elements often embedded in archetypal drama; lack of historical verification; establishment in collective memory; revivals after periods of dormancy; subjection to political and economic manipulation; implicit speculation and literary transformations. This book contextualises *Unsettled*, an Australian novel about a convict play derived from the Irish apocryphal story of *The Magistrate of Galway*, and documents previously unpublished primary material including apocryphal stories passed through generations of descendants of settlers. Martin and Maria Lynch and *The Hibernian Father*, a play by Irish convict Edward Geoghegan. It puts forward new hypotheses that the Irish hero Cuchulain may have provided a template for the archetypal and apocryphal story of the Magistrate of Galway that disgraced Trinity College medical student and aspiring writer Edward Geoghegan. He enacted and recounted the same father-son archetypal conflict when he was transported to Botany Bay in 1839 and wrote *The Hibernian Father* based on the Magistrate of Galway that working-class Irish families were marginalised in South-east South Australia. Historical records that oral apocryphal Lynch stories may be true that Kate Grenville's *The Secret River* 2006 offers an alternative history of the Hawkesbury River settlement by some definitions apocryphal. The mystery of Geoghegan's disappearance is solved and knowledge about his life increased. French theorist Gerard Genette's notion advanced in *Palimpsests: Literature in the Second Degree* 1997 of all novels being transtextual provides a model for the analysis of relationships between these key apocryphal texts. **Memory and Foresight in the Celtic World** Lorna G. Barrow, Jonathan Wooding, 2020-12-01 *Memory and Foresight in the Celtic World* delves deep into the experience of Celtic communities and individuals in the late medieval period through to the modern age. Its thirteen essays range widely from

Scottish soldiers in France in the fifteenth century to Gaelic speaking communities in rural New South Wales in the twentieth and expatriate Irish dancers in the twenty first Connecting them are the recurring themes of memory and foresight how have Celtic communities maintained connections to the past while keeping an eye on the future Chapters explore language loss and preservation in Celtic countries and among Celtic migrant communities and the influence of Celtic culture on writers such as Dylan Thomas and James Joyce In Australia how have Irish Welsh and Scottish migrants engaged with the politics and culture of their home countries and how has the idea of a Celtic identity changed over time Drawing on anthropology architecture history linguistics literature and philosophy *Memory and Foresight in the Celtic World* offers diverse thought provoking insights into Celtic culture and identity

Imperial spaces Lindsay Proudfoot,Dianne Hall,2013-07-19 *Imperial spaces* takes two of the most influential minority groups of white settlers in the British Empire the Irish and the Scots and explores how they imagined themselves within the landscapes of its farthest reaches the Australian colonies of Victoria and New South Wales Using letters and diaries as well as records of collective activities such as committee meetings parades and dinners the book examines how the Irish and Scots built new identities as settlers in the unknown spaces of Empire Utilizing critical geographical theories of place as the site of memory and agency it considers how Irish and Scots settlers grounded their sense of belonging in the imagined landscapes of south east Australia *Imperial spaces* is relevant to academics and students interested in the history and geography of the British Empire Australia Ireland and Scotland

The Sound Structure of Modern Irish Raymond Hickey,2015-02-17 *The Sound Structure of Modern Irish* contains a comprehensive description of the phonology of Irish Based on the main forms of the language it offers an analysis of the segments and the processes in its sound system Each section begins with a description of the area of phonology which is the subject such as stress patterns phonotactics epenthesis or metathesis and then proceeds to consider the special aspects of this subject from a theoretical and typological perspective The book pays particular attention to key processes in the sound system of modern Irish The two most important of these are palatalisation and initial mutation phenomena which are central to Irish and the analysis of which has consequences for general phonological theory The other main emphasis in the book is on a typological comparison of several different languages all of which show palatalisation and or initial mutation as part of their systems The different forms of Celtic Slavic languages Romance dialects and languages along with languages such as Finnish Fula Nivkh and Southern Paiute are considered to find out how processes which are phonetic in origin
