Divinations Daniel M. Bell Jr., 2017-10-27 As modernity gives way to postmodernity we are witnessing the emergence of a post political age Concepts and realities that anchored modern politics like nation states community freedom and law find themselves under duress from a pluriform terror Simultaneously we are witnessing a turn to religion by continental philosophers who seek resources for re visioning a politics of resistance to this terror This work engages postmodern philosophers such as Agamben Badiou Derrida Deleuze Hardt Negri and Zizek seeking to divine both the promise and peril of this pagan plundering of Christianity on the way to articulating a Christian theopolitical vision that holds out the hope of resisting the terror that looms over us

Speaking Being Bruce Hyde, Drew Kopp, 2019-08-06 Speaking Being Werner Erhard Martin Heidegger and a New Possibility of Being Human is an unprecedented study of the ideas and methods developed by the thinker Werner Erhard In this book those ideas and methods are revealed by presenting in full an innovative program he developed in the 1980s called The Forum available in this book as a transcript of an actual course led by Erhard in San Francisco in December of 1989 Since its inception Erhard s work has impacted the lives of millions of people throughout the world Central to this study is a comparative analysis of Erhard s rhetorical project The Forum and the philosophical project of Martin Heidegger Through this comparative analysis the authors demonstrate how each thinker s work sometimes parallels and often illuminates the other The dialogue at work in

The Forum functions to generate a language which speaks being That is The Forum is an instance of what the authors call ontological rhetoric a technology of communicating what cannot be said in language Nevertheless what does get said allows those participating in the dialogue to discover previously unseen aspects of what it currently means to be human As a primary outcome of such discovery access to creating a new possibility of what it is to be human is made available The purpose of this book is to show how communication of the unspoken realm of language speaking being is actually accomplished in The Forum and to demonstrate how Erhard did it in 1989 Through placing Erhard s language use next to Heidegger s thinking presented in a series of Sidebars and Intervals alongside The Forum transcript the authors have made two contributions They have illuminated the work of two thinkers who independently developed similar forms of ontological rhetoric while working from very different times and places Hyde and Kopp have also for the first time made Erhard s extraordinary form of ontological rhetoric available for a wide range of audiences from scholars at work within a variety of academic disciplines to anyone interested in exploring the possibility of being for human beings From the Afterword I regard Speaking Being as an enormously important contribution to understanding Heidegger and Erhard The latter has received far too little serious academic attention and this book begins to make up for that lack Moreover the book s analysis of Heidegger s thought is among the best that I have ever read I commend this book to all readers without reservation Michael E Zimmerman Professor Emeritus University of Colorado Boulder

Film and Suspense Altan Löker, 2005 An important fact about films stage plays is that the creation the creators of the most successful of them are shrouded in mystery This is true especially about Shakespeare Hitchcock other top filmmakers of Hollywood in general This book unveils the secret of the success of the masters of drama as summarized below A good film is the one that gives to the spectator the impression of witnessing real events Certain story events provide real pleasure to the spectator independently from the activities of the story characters make him her wish those events to be real This process of wishing enjoying the result wishing it to be real is the most solid basis of the illusion of reality but cannot satisfy all of his her needs It is relatively easy to please the spectator but difficult to make him experience fear Story telling consists of pleasing scaring the audience The spectator can be rewarded by showing him her what he she likes to see wishes to be real therefore sees as real But how he she can be punished made to fear real punishment The answer is to induce free floating anxiety in his her mind This response is a consequence of the spectator s repressed guilt caused by the morally unacceptable but unavoidable side consequences of his her acceptable wishes In this book the generation of free floating anxiety is explained in detail it is shown that Shakespeare knew about this phenomenon in some form and made it the basis of his dramatic technique Hitchcock learned its theory from Freud its use in drama from Shakespeare Hitchcock s Psycho and The Birds are analyzed in full partially shot by shot Shakespeare s Hamlet King Lear and Othello are analyzed also in full partially line by line The nature of suspense how it is generated are explained its relation to conflict guilt free floating anxiety hopes fears action the illusion of reality are clarified exemplified
