Sources Of Conflict In The 21st Century Regional Futures And U S Strategy:

Sources of Conflict in the 21st Century Zalmai Khalilzad, Ian O. Lesser, Project Air Force (U.S.), 1998 The problem of global long range defense planning has changed enormously since the end of the Cold War The sources and types of conflict for which the military must plan have become more varied and less predictable the range of potential adversaries is larger the range of military missions is more diverse and the nature of security itself is changing on a global basis Defense analysts must begin to consider how many of today's leading adversaries will remain adversaries if long standing allies will change their orientation who will be called on to intervene and where and if we can expect stability or chaos This book examines current political trends and potential sources of conflict in three critical regions Asia the greater Middle East and Europe and the former Soviet Union through the year 2025 The authors describe possible alternative strategic worlds including a projection of today's mixed political climate a more benign world in which the great powers are at peace and are actively cooperative and a world beset with economic demographic and political turmoil Additional chapters discuss regional trends and their meaning for strategy and planning Originally intended to serve Air Force long range planning needs the findings are relevant to broader ongoing debates and should be of interest to a wide foreign and security policy audience

Sources of Conflict in the 21st Century; Regional Futures and U.S. Strategy, 1998 This book brings together three regional security assessments along with an overview of global trends in the strategic environment Each of the regional assessments covering Asia the greater Middle East and Europe and the former Soviet Union examines key trends and potential sources of conflict through the year 2025 and identifies the implications for the U S Air Force and for U S national security policy more broadly The chapters in this volume reflect research undertaken in 1996 for a study on Sources of Conflict and Their Implications for Air Force Operations conducted within the Strategy and Doctrine Program of RAND's Project AIR FORCE The study sponsored by the Deputy Chief of Staff Plans and Operations was intended to serve Air Force long range planning needs The findings are also relevant to broader ongoing debates within the Department of Defense and elsewhere especially in the context of the Quadrennial Defense Review Our analyses and conclusions should be of interest to a wide foreign and security policy audience

The Twenty-First Century: The World Without Russia Олег Арин/Алекс Бэттлер, In this book Alex Battler questions the assertion of Russia's status as a great power in the acuminate form The author reveals the contradictions between Russia's real modern potential and its foreign policy objectives formulated by official Moscow The author has formulated laws on the Pole the Center of Power and Force Battler introduces some new concepts of the Theory of International Relations The Foreign Policy Potential of the State and The Law on the Optimal Balance Between the Costs of Domestic and Foreign Policy On almost all problems raised by the author his views do not coincide with generally accepted interpretations and approaches The second extended edition of the book The Twenty First Century The World Without Russia includes updated copyright and newly added parts and paragraphs

European Security Bjørn Møller, 2016-04-22 Europe

has undergone quite profound changes since the end of the Cold War. Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable. This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation, the Organisation for Security and Cooperation in Europe, the Council of Europe and the European Union. When it comes to explaining peace in Europe opinions differ widely. Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides. Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war. Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures, democracies with marked economies that are open towards the world market. These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means. It will be required reading for all students and scholars of European security and the organisations which underpin it.

The Greek-Turkish Relationship and NATO Dr Fotios Moustakis, 2004-11-23. This publication shows that the Eastern Mediterranean having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post Cold War era is in a state of flux. Despite sporadic periods of rapprochement tensions between Greece and Turkey still exist. Therefore one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on the NATO organisation as a whole. Hence this volume has two purposes: first to examine Greek and Turkish foreign security and defence policies during and after the post Cold War period and second to investigate why these policies have been formulated.

Unconquerable Nation Brian Michael Jenkins, 2006. The author presents a clear sighted and sobering analysis of where we are today in the struggle against terrorism. Jenkins an internationally renowned authority on terrorism distills the jihadists operational code and outlines a pragmatic but principled approach to defeating the terrorist enterprise. We need to build upon our traditions of determination and self reliance he argues and above all preserve our commitment to American values.

Small State Security Dilemma: Kuwait after 1991 Radhika Lakshminarayanan, 2019-12-31. The Arabian Gulf region is a vulnerable flashpoint. Small states in this region try to leverage their core interests against big power domination. This book narrates the problematique of Kuwait whose geostrategic weakness was exposed in 1990 forcing her to trade resource strength for security guarantees. In recent years

challenged by regional rivalries environmental impacts falling oil prices and the dangers of terrorist insurgency Kuwait faces an escalating security dilemma With the imminent disengagement of the U S from Middle Eastern entanglements should Kuwait resort to hedging partnerships with emerging multipolar giants like China Russia or India Can Kuwait survive domestic challenges of a youth bulge a huge expatriate population budgetary deficits increasing public welfare and costs of desalination What would be the main security options for Kuwait in a world that is increasingly volatile uncertain complex and ambiguous
