The Long Island Historical Journal, 2000 **Imagining the Past**, 1996-02-01 How we make history and what we then make of it is engagingly dramatized in T H Breen s portrait of a 350 year old American community faced with the costs of its progress In the particulars of one town s struggle to check development and save its natural environment Breen shows how our sense of history reflects our ever changing self perceptions and hopes for the future Breen first went to East Hampton the celebrated Long Island resort town to write about the Mulford Farmstead a picturesque saltbox dating from the 1680s Through his research he came across a fascinating cast of local characters past and present who contributed to invented and reinvented the town s history Breen s work also drew him into contemporary local affairs factionalism among residents

zoning disputes and debates over resource management Driving these heated issues Breen found were some dearly held notions about a harmonious agrarian past that conflicted with what he had come to know about the divisiveness and opportunism of East Hampton's early days Imagining the Past is about the interplay between some of the East Hampton histories Breen encountered the official histories of many generations the myths and oral traditions and the curious stories that Breen as an outsider discerned in the town's rich holdings of artifacts and documents With a warm yet wry regard for human nature Breen obliges us to confront our pasts in all their complexities and ironies no matter how unsettling or inconvenient the experience
