International Security Issues United States. Congress. Senate. Committee on Armed Services, 1983 The DISAM Journal of International Security Assistance Management ,2007 **International Security in the Asia-Pacific** Alan Chong, 2017-09-13 This volume argues that international security in the Asia Pacific lends itself to contradictory analyses of centrifugal and centripetal trends Transitional polycentrism is intrinsically awkward as a description of the security of states and their populations it implies the loosening of state control and the emergence of newly asserted authority by mixed constellations of intergovernmental organizations and non state actors It implies a competition of agendas threats to the integrity of borders and human security threats such as natural disasters airliner crashes and displacement by man made pollution and food scarcity Conversely polycentrism could also imply a return to a more neo realist oriented international order where great powers ignore ASEAN and steer regional order according to their perceived interests and relative military superiority This book embraces these contradictory trends as a foundation of analysis and accepts that disorder can also be re described from the perspective of studied detachment as polycentric order International Security and the United States Paul Bellamy, Karl DeRouen Jr., 2007-12-30 Shaped by often very dramatic events international security and the international system have changed significantly in recent years The conclusion of the Cold War the emergence of new political systems the growth of significant threats such as terrorism and the development of new security doctrines have driven global transformation. These volumes provide detailed information on countries from every geographic region and continent on the globe evaluating their relationship with the United States and measuring the potential security threats posed by each The contributors consider factors such as geography and history the political systems of each state their human rights records the ability to maintain law and order and provide security within their own borders the impact of current administrations rulers or regimes on a nation s foreign policy and the regional factors that often dictate local politics in order to make their assessments All of the entries in this set follow a standardized outline and present a concise but detailed assessment of each country Each entry begins with a discussion of geography through which the contributors identify the state s natural resources environmental issues and the extent of its territorial jurisdiction The focus then shifts to social and political organizations Populations are broken down by not only numbers but by ethnic and religious affilitations access to health care education housing and income All of those aspects are often a reflection of the system of government in place Like the United States those governments are comprised of different parties or leaders with various interests The contributors assess those entities and interests within each country They measure the ways in which factors of religion nationalism and globalism impact and shape not only domestic policies but also foreign policy and ultimately the country s relationship to the United States Other areas such as military organizations and activities records on human rights and justice recognition of and adherence to international conventions and national attitudes towards security are also considered

Every entry also includes an assessment of current and potential security issues and an analysis of current terrorist threats that may already be in place or that are beginning to develop in various nations Each entry concludes with a summary of current relationships with the United States Those relationships are defined by the indentification and brief analysis of formal trade aid or military treaties in place between the United States and other nations the general attitude of a nation s citizenry and its government towards the U S and finally indentifying any social and cultural links between nations and the U S migration patterns language economies Finally possible changes and trends that will impact security issues are identified by the contributors Taken in their entirety these encyclopedias contain a wealth of information in a concise format that will serve as a valuable reference guide not only for specialists but general readers as well The Pacific Island States S. Henningham, 1995-10-25 In the volatile post Cold War era the small vulnerable states of the Pacific Islands region face several challenges to their security and sovereignty This book focuses on these challenges as part of an examination of security and defence issues in the region It considers trends and issues over the last decade and the uncertain prospects over the next The book emphasizes political diplomatic and military matters including the role of external powers but also considers environmental economic and resources issues Global Maritime Geopolitics Hasret COMAK, Burak Şakir ŞEKER, Mehlika Özlem ULTAN, 2022-01-16 States must develop new approaches maritime policies strategies and tactics to cruise through the contemporary maritime politics Soft power as well as economic commercial and logistics factors are of critical importance in establishing marine power It is critical to promote maritime related products such as films serials literature and art maritime journalism and maritime photography as part of governmental policies Marine and maritime security challenges are becoming more important in today s world As a result of all these developments the preparation of a multidimensional and comprehensive work on the oceans and seas at the global level has been brought to the agenda Our book has been written to elucidate these concerns and contribute to this important scholarly and policy field This book can also be useful for wider audiences as a comprehensive volume on maritime geopolitics covering many cases from around the world and discussions from Turkish perspectives CONTENTS PREFACE PART 1 ANTARCTIC AND ARCTIC MARITIME SECURITY INTERACTION WITHIN LIBERALISM REALISIM AND CRITICAL THEORIES Burak akir eker and Hasret omak Global Geopolitical Shift Balance of Power in The Arctic Ferdi G yetmez BALTIC STATES AND ARCTIC NEGOTIATIONS ncel Sen erman UNDERSTANDING THE ANTARCTIC BIODIVERSITY AND TURKISH CONTRIBUTION TO ITS PROTECTION Bayram zt rk and Mehmet G khan Hal c PART 2 INDIAN AND PACIFIC OCEAN GEOPOLITICS SECURITIZATION PROCESS OF INDO PACIFIC AND ASIA PACIFIC THROUGH IR THEORIES WITHIN MARITIME SECURITY INTERACTION Burak akir eker THE GEOPOLITICS OF INDO PACIFIC REGION nci S kmen Alaca ASEAN AND ITS ROLE IN THE GEOPOLITICS OF THE SOUTH PACIFIC Ahmet Ate and S leyman Temiz REGIONAL CHALLENGES AND INTERNATIONAL RELATIONS THE COMPLEX REALITIES OF THE SOUTH PACIFIC GEOPOLITICS Amba Pande THE WIDER NORTH AND THE NEW
