South Old And New Frontiers:

The South: Old and New Frontiers Frank Lawrence Owsley, 1969

The New Encyclopedia of Southern Culture

Celeste Ray, 2014-02-01 Transcending familiar categories of black and white this volume of The New Encyclopedia of Southern Culture complicates and enriches our understanding of southernness by identifying the array of cultures that combined to shape the South This exploration of southern ethnicities examines the ways people perform and maintain cultural identities through folklore religious faith dress music speech cooking and transgenerational tradition Accessibly written and informed by the most recent research that recovers the ethnic diversity of the early South and documents the more recent arrival of new cultural groups this volume greatly expands upon the modest Ethnic Life section of the original Encyclopedia Contributors describe 88 ethnic groups that have lived in the South from the Mississippian Period 1000 1600 to the present They include 34 American Indian groups as well as the many communities with European African and Asian cultural ties that came to the region after 1600 Southerners from all backgrounds are likely to find themselves represented here

The Urban South Lawrence H. Larsen, 2014-07-15 In this panoramic survey of urbanization in the American South from its beginnings in the colonial period through the Sunbelt era of today Lawrence Larsen examines both the ways in which southern urbanization has paralleled that of other regions and the distinctive marks of southernness in the historical process Larsen is the first historian to show that southern cities developed in layers spreading ever westward in response to the expanding transportation needs of the Cotton Kingdom Yet in other respects southern cities developed in much the same way as cities elsewhere in America despite the constraints of regional racial and agrarian factors And southern urbanites far from resisting change quickly seized upon technological innovations most recently air conditioning to improve the quality of urban life Treating urbanization as an independent variable without an ideological foundation Larsen demonstrates that focusing on the introduction of certain city services such as sewerage and professional fire departments enables the historian to determine points of urban progress Larsen s landmark study provides a new perspective not only on a much ignored aspect of the history of the South but also on the relationship of the distinctive cities of the Old South to the new concept of the Sunbelt city Carrying his story down to the present he concludes that southern cities have gained parity with others throughout America This important work will be of value to all students of the South as well as to urban historians

The Rise of the Urban South Lawrence H. Larsen, 2014-07-15 Operating under an outmoded system of urban development and faced by the vicissitudes of the Civil War and Reconstruction southerners in the nineteenth century built a network of cities that met the needs of their society In this pioneering exploration of that intricate story Lawrence H Larsen shows that in the antebellum period southern entrepreneurs built cities in layers to facilitate the movement of cotton First came the colonial cities followed by those of the piedmont the New West the Gulf Coast and the interior By the Civil War cotton could move by a combination of road rail and river through a network of cities for example from Jackson to Memphis to New Orleans to

Europe In the Gilded Age building on past practices the South continued to make urban gains Men like Henry Grady of Atlanta and Henry Watterson of Louisville used broader regional objectives to promote their own cities Grady successfully sold Atlanta one of the most southern of cities demographically as a city with a northern outlook Watterson tied Louisville to national goals in railroad building The New South movement did not succeed in bringing the region to parity with the rest of the nation yet the South continued to rise along older lines By 1900 far from being a failure in terms of the general course of American development the South had created an urban system suited to its needs while avoiding the promotional frenzy that characterized the building of cities in the North Based upon federal and local sources this book will become the standard work on nineteenth century southern urbanization a subject too long unexplored **Under an Open Sky** William

Cronon, George A. Miles, Jay Gitlin, 1993 If you prefer history served in a dozen fresh ways get this book Chicago Tribune

Selected Letters of Robert Penn Warren Robert Penn Warren, 2001-03-01 **Postcolonial Literary Studies** Robert P. Marzec, 2011-09-15 Internationally recognized for its superior scholarship Modern Fiction Studies was one of the first journals to publish articles on postcolonial studies Since postcolonialism's inception scholars have defined clarified and enriched its conceptions and theoretical development in the pages of MFS This anthology collects the best and most important articles on postcolonial literary studies published in MFS in the past thirty years Postcolonial Literary Studies brings together groundbreaking scholarship focusing on significant works of fiction by such writers as Chinua Achebe J M Coetzee Jamaica Kincaid V S Naipaul Arundhati Roy Salman Rushdie Bapsi Sidhwa Ngugi wa Thiong'o and more The essays feature ideas that helped shape the discipline from its earliest stages to the present and represent some of the finest examples of literary theoretical historical and cultural criticism With its focus on literary figures and texts rather than solely on theory this volume fills a significant gap in the fields of postcolonialism global studies and literary criticism in general This rich collection of essays by the field's leading scholars will prove indispensable to instructors and students across a broad spectrum of humanistic studies It not only highlights the development and transformation of postcolonial literary study but also by mapping out new directions of study considers its continual significance and expansion *Catalog of Copyright*

Entries. Third Series Library of Congress. Copyright Office, 1973 **Poetry, Providence, and Patriotism** Joel Burnell, 2010-01-01 Polish messianism tells the story of a nation struggling to survive and regain its independence As narrated by the poets Jan Paweł Wroński and Adam Mickiewicz its vision of patriotism and civil responsibility first told two hundred years ago contains promising resources today for a world facing challenged by pluralism secularization nationalism and religious fundamentalism Yet this messianism has a dark side The romantic philosophy of history that funded this messianism proved an inadequate defense against Prussian and Russian military might and failed to inoculate Poles against the rising spirit of nationalism xenophobia and anti-Semitism that swept Europe in the nineteenth and twentieth centuries In seeking to address the problematic and promising feature of Poland's particular messianism Burnell draws up on the

theology of Dietrich Bonhoeffer arguing that his theology offers a much needed critique of the myths and values of romantic national messianism Where such messianism asks how Christ could serve a nation s cause and freedom Bonhoeffer declared that by it is by following Christ in discipleship that people and nations become truly free Recently a new wave of Polish religio political fundamentalism has appeared as a response to the rapid secularization of society since the end of the Cold War Certain members of the Polish clergy have again joined conservative politicians to promote nationalistic populist xenophobic and anti Semitic attitudes Bonhoeffer in contrast argued for leaders who ennoble and empower those they serve and modeled how patriots can honor their nation s achievements while freely confessing its failures His legacy facilitates dialogue and reconciliation in the ongoing struggle against ethnic religious and national bigotry Following his lead the messianic myth of Poland the Christ of the nations can be recast as a call to follow the One who is God for us and the man for others by standing with the suffering by speaking for the disenfranchised and serving alongside other nations in the cause of freedom and justice Prologue ,1986
