Southeast European Maritime Commerce And Naval Policies:

Southeast European Maritime Commerce and Naval Policies from the Mid-eighteenth Century to 1914 Kōnstantinos D. Svolopoulos, Béla K. Király, 1988 *Southeast European Maritime Commerce and Naval Policies* D. J. Delivanis, 1988

Southeast European Maritime Commerce and Naval Policies, 1988 *Southeast European Maritime Commerce and Naval Policies from the Mid-eighteenth Century to 1914* Apostolos E. Vacalopoulos, 1988 *The Naval Policy of Austria-Hungary, 1867-1918* Lawrence Sondhaus, 1994 The Austro Hungarian navy warrants recognition because it functioned far better than most organs of the multinational Habsburg state Ultimately in the pre World War I age of navalism the fleet provided a unique common cause for a wide variety of nationalities and political parties Dramatic funding increases fueled the expansion of the fleet and lucrative naval contracts judiciously distributed reinforced and further broadened the navy's base of support Though often criticized by its German ally the Austro Hungarian navy succeeded in defending the Adriatic throughout World War I in the process requiring the constant attention of a significant share of enemy sea power as late as the spring of 1918 an American admiral characterized the Adriatic as an Austrian lake The navy collapsed only when Austria Hungary as a whole disintegrated in the last days of the war This detailed study charts the uneven growth of the Austro Hungarian navy from its high point following Archduke Ferdinand Max's administration and the War of 1866 to its ultimate dissolution after World War I In following this development Sondhaus not only relates the operational aspects of the Habsburg navy but also traces the growth of popular navalism in Austria Hungary the role of naval expansion in stimulating industrial development and the peculiar difficulties of navy commanders in dealing with the Habsburg nationality problem and the cumbersome politics of Austro Hungarian dualism Drawing on a vast variety of archival sources and government documents and protocols Sondhaus analyzes economic factors carefully and shows how these tended to complicate perhaps even to override political divisions He ably demonstrates how such varied factors as the wavering policy of Italy French naval theory the need for consensus within the Dual Monarchy and the general European escalation in naval armaments influenced the fortunes of the fleet Across the Danube: Southeastern Europeans and Their Travelling Identities (17th-19th C.)

, 2016-11-21 The Danube has been a border and a bridge for migrants and goods since antiquity Between the 17th and the 19th centuries commercial networks were formed between the Ottoman Empire and Central and Eastern Europe creating diaspora communities This gradually led to economic and cultural transfers connecting the Mediterranean the Black Sea and the Continental world of commerce The contributors to the present volume offer different perspectives on commerce and entrepreneurship based on the interregional treaties of global significance on cultural and ecclesiastical relations population policy and demographical aspects Questions of identity family and memory are in the centre of several chapters as they interact with the topographic and socio anthropological territoriality of all the regions involved Contributors are Constantin Ardeleanu Iannis Carras Lidia Cotovanu Lyubomir Georgiev Olga Katsiardi Hering Dimitrios Kontogeorgis Nenad Makuljevi

Ikaros Mantouvalos Anna Ransmayr Vaso Seirinidou Maria A Stassinopoulou *The Routledge Handbook of the Crimean War* Candan Badem, 2021-09-15 The Routledge Handbook of the Crimean War is an edited collection of articles on the various aspects of the Crimean War written by distinguished historians from various countries Part I focuses on diplomatic military and regional perspectives Part II includes contributions on social cultural and international issues around the war All contributions are based upon findings of the latest research While not pretending to be an exhaustive encyclopaedia of this first modern war the present volume captures the most important topics and the least researched areas in the historiography of the war The book incorporates new approaches in national historiographies to the war and is intended to be the most up to date reference book on the subject Chapters are devoted to each of the belligerent powers and to other peripheral states that were involved in one way or another in the war The volume also gives more attention to the Ottoman Empire which is generally neglected in European books on the war Both the general public and students of history will find the book useful balanced and up to date

The Historical Practice of Diversity Dirk Hoerder, Christiane Harzig, Adrian Shubert, 2003-09-01 While multicultural composition of nations has become a catchword in public debates few educators not to speak of the general public realize that cultural interaction was the rule throughout history Starting with the Islam Christian Jewish Mediterranean world of the early modern period this volume moves to the empires of the 18th and 19th centuries and the African Diaspora of the Black Atlantic It ends with questioning assumptions about citizenship and underlying homogeneous received cultures through the analysis of the changes in various literatures This volume clearly shows that the life worlds of settled as well as migrant populations in the past were characterized by cultural change and exchange whether conflictual or peaceful Societies reflected on such change in their literatures as well as in their concepts of citizenship

The Hamburg Marine Insurance, 1736-1859 Markus A. Denzel, 2022-04-11 Since 1736 Hamburg's price current consistently listed the marine insurance premiums of the Hanseatic Town as well as of many other European ports Based on the long term analysis of these quotations over the course of about 120 years this book sheds light on the factors of influence such as weather conditions wars and piracy to name a few which interfered with European and intercontinental maritime trade The cause of the long term decline of premium rates and by extension also of transaction costs is understood as a consequence of both the restoration of security on the high seas after the Napoleonic Wars and the elimination of the last nests of piracy around 1830

Borders and Mobility Control in and between Empires and Nation-States, 2022-10-24 In a modernist interpretation of migration controls nation states play a major role This book challenges this interpretation by showing that comprehensive migration checks and permanent border controls appeared much earlier in early modern dynastic states and empires and predated nation states by centuries The 11 contributions in this volume explore the role of early modern and modern dynastic kingdoms and empires in Europe the Middle East and Eurasia and the evolution of border controls from the 16th to the 20th century They analyse how these states interacted with other polities such as emerging nations states in Europe North

America and Australia and what this means for a broader reconceptualization of mobility in Europe and beyond in the *longue durée* Contributors are Tobias Brinkmann Vincent Denis Sinan Din er Josef Ehmer Irial A Glynn Sabine Jesner Olga Katsiardi Hering Leo Lucassen Ikaros Mantouvalos Leslie Page Moch Jovan Pe alj Lewis H Siegelbaum Annemarie Steidl and Megan Williams
