Sovereign Virtue Aristotle On The Relation Between Happiness And Prosperity:

Sovereign Virtue Stephen Augustus White,1992 The central subject of Aristotle s ethics is happiness or living well Most people in his day as in ours eager to enjoy life impressed by worldly success and fearful of serious loss believed that happiness depends mainly on fortune in achieving prosperity and avoiding adversity Aristotle however argues that virtuous conduct is the governing factor in living well and attaining happiness While admitting that neither the blessings nor the afflictions of fortune are unimportant he maintains that the virtuous find life more satisfying than other people do and with only modest good fortune they lead happy enjoyable lives Combining philological precision with philosophical analysis the author reconstructs Aristotle s defense of these bold claims By examining how Aristotle develops his position in response to the prevailing hopes and anxieties of his age the author shows why Aristotle considers happiness important for ethics and why he thinks it necessary to revise popular and traditional views Paying close attention throughout to the internalist dimension of Aristotle s approach his emphasis on how the virtuous view their own lives and actions the author advances new interpretations of Aristotle s accounts of several major virtues including temperance courage liberality and greatness of soul This work sets Aristotle in the broader cultural context of his time tracing his attempts to accommodate and amend rival views The author examines literary and historical sources as well as philosophical texts showing the inherited values and traditional ideals that inform Aristotle s discussions and provide some of the basis for his conclusions Presupposing no knowledge of Greek or specialized philosophical terminology the book is designed to be accessible to all students of philosophy or classical antiquity All quotations from ancient texts are translated Sovereign Virtue Stephen Augustus White,1987 Aristotle on Happiness, Virtue, and Wisdom Bryan C. Reece,2023-06-29 Aristotle thinks that happiness is an activity it consists in doing something rather than a feeling It is the best activity of which humans are capable and is spread out over the course of a life But what kind of activity is it Some of his remarks indicate that it is a single best kind of activity intellectual contemplation Other evidence suggests that it is an overarching activity that has various virtuous activities ethical and intellectual as parts Numerous interpreters have sharply disagreed about Aristotle s answers to such questions In this book Bryan Reece offers a fundamentally new approach to determining what kind of activity Aristotle thinks happiness is one that challenges widespread assumptions that have until now prevented a dialectically satisfactory interpretation His approach displays the boldness and systematicity of Aristotle s practical philosophy **The Virtue of Aristotle's Ethics** Paula Gottlieb,2009-04-27 This text looks at Aristotle s claims particularly the much maligned doctrine of the mean

Investigating the Relationship Between Aristotle's Eudemian and Nicomachean Ethics Giulio Di Basilio,2022-06-16 Specifically focusing on the relationship between the Eudemian and the Nicomachean Ethics this collection of essays studies major themes from Aristotle s ethics This volume builds on a recent revival of interest in Aristotle s Eudemian Ethics which offers an invaluable complement to the Nicomachean Ethics in the study of the development of

Aristotle's ethical ideas It brings together a series of new studies by leading scholars covering the main points of inquiry raised by the relationship between the two works exploring their continuities and divergences At the same time it showcases a variety of approaches to and perspectives on the main questions posed by Aristotle's ethical thought Investigating the Relationship Between Aristotle's Eudemian and Nicomachean Ethics is offered as a contribution to long standing debates over Aristotle's ethical thinking as well as an inspiration for new approaches which take both of his surviving ethical treatises seriously The volume will be of interest to students and scholars of ancient philosophy and ethics particularly Aristotle's two ethics

Christians among the Virtues Stanley Hauerwas, Charles Pinches, 2022-12-06 Christians among the Virtues investigates the distinctiveness of virtues as illuminated by Christian practice using a discussion of Aristotle's ethics together with the work of significant contemporary scholars such as Alasdair MacIntyre and Martha Nussbaum Hauerwas and Pinches converse with learn from and also critically engage powerful and explicitly non Christian accounts of virtues and then form a specifically Christian account of certain key virtues including obedience hope courage and patience This book will deepen the current public debate about virtue by showing how different traditions and practices yield distinctive understandings of the virtues and by articulating the particularity of virtues informed by Christian practice Hauerwas and Pinches begin with a discussion of Aristotle's account of happiness virtue and friendship and explore how the temporal character of life threatens the possibility of being virtuous The authors then contrast this idea with the Christian recognition of our temporal limitations as a call to virtue rather than a threat In the second section the authors address a work by John Casey which attempts to present an account of the virtues purged of their Christian heritage This analysis as well as the critical readings of MacIntyre and Nussbaum will be of particular interest to philosophers and theologians alike The authors bring a theological voice to the popular and philosophical debates about virtue While the work encourages Christians to think about what is unique to Christian virtue its specificity does not limit its applicability but opens up and deepens the debate over the particular interpretations of virtues calling on others to present more specific articulations of what it means to be courageous obedient hopeful and patient and to contrast those accounts with the Christian interpretations presented by the authors In this respect Christians among the Virtues is the first work in what could be called the second stage of the recovery of the virtues the work of understanding the difference among interpretations of the virtues in the light of different practices and traditions

Aristotle's Ethics as First Philosophy Claudia Baracchi, 2007-12-17 In Aristotle's Ethics as First Philosophy Claudia Baracchi demonstrates the indissoluble links between practical and theoretical wisdom in Aristotle's thinking Referring to a broad range of texts from the Aristotelian corpus Baracchi shows how the theoretical is always informed by a set of practices and specifically how one's encounter with phenomena the world or nature in the broadest sense is always a matter of ethos Such a modern intimation can thus be found at the heart of Greek thought Baracchi's book opens the way for a comprehensively reconfigured approach to classical Greek philosophy

Aristotle on the Uses of Contemplation

Matthew D. Walker, 2018-05-31 Traditionally Aristotle is held to believe that philosophical contemplation is valuable for its own sake but ultimately useless In this volume Matthew D Walker offers a fresh systematic account of Aristotle s views on contemplation s place in the human good The book situates Aristotle s views against the background of his wider philosophy and examines the complete range of available textual evidence including neglected passages from Aristotle s Protrepticus On this basis Walker argues that contemplation also benefits humans as perishable living organisms by actively guiding human life activity including human self maintenance Aristotle s views on contemplation s place in the human good thus cohere with his broader thinking about how living organisms live well A novel exploration of Aristotle s views on theory and practice this volume will interest scholars and students of both ancient Greek ethics and natural philosophy It will also appeal to those working in other disciplines including classics ethics and political theory **Creating Beauty to Cure the Soul** Sander L. Gilman, 1998 Sander Gilman s undisputed mastery in explaining and analyzing human stereotypes receives a new and fascinating dimension through the role which aesthetic surgery plays in connecting ideas of physical change and human happiness George L Mosse author of The Image of Man and The Crisis of German Ideology Will as Commitment and Resolve John J. Davenport, 2009-08-25 In contemporary philosophy the will is often regarded as a sheer philosophical fiction In Will as Commitment and Resolve Davenport argues not only that the will is the central power of human agency that makes decisions and forms intentions but also that it includes the capacity to generate new motivation different in structure from prepurposive desires The concept of projective motivation is the central innovation in Davenport s existential account of the everyday notion of striving will Beginning with the contrast between eastern and western attitudes toward assertive willing Davenport traces the lineage of the idea of projective motivation from NeoPlatonic and Christian conceptions of divine motivation to Scotus Kant Marx Arendt and Levinas Rich with historical detail this book includes an extended examination of Platonic and Aristotelian eudaimonist theories of human motivation Drawing on contemporary critiques of egoism Davenport argues that happiness is primarily a byproduct of activities and pursuits aimed at other agent transcending goods for their own sake In particular the motives in virtues and in the practices as defined by Alasdair MacIntyre are projective rather than eudaimonist This theory is supported by analyses of radical evil accounts of intrinsic motivation in existential psychology and contemporary theories of identity forming commitment in analytic moral psychology Following Viktor Frankl Joseph Raz and others Davenport argues that Harry Frankfurt s conception of caring requires objective values worth caring about which serve as rational grounds for projecting new final ends The argument concludes with a taxonomy of values or goods devotion to which can make life meaningful for us
