Sample Book Insights

- 1 The women in this study were from families headed by lesser landed gentlemen attorneys doctors clerics merchants and manufacturers They were not pretentious about their aristocracy but they did not pretend to be members of the fashionable cosmopolitan beau monde
- 2 The Georgian social stratum has not been well served by recent historical investigation The English lesser gentry who were recruited into prestigious trades have not been researched at all
- 3 The image of a deep cultural divide between the local elites of land and trade is not accurate at the parish level In fact the land to the south of Pendle Hill was known for its poor soil heavy rainfall and long established textile industries
- 4 The Pennines were a remote area far from the centers of polite society However they were not lacking in polite families The valley of the Lancashire Calder was home to many well established families who built modest mansions and hosted balls in August 1777

**The Gentleman's Daughter** Amanda Vickery, 1998 Eighteenth century women have long been presented as the heroines of traditional biographies or as the faceless victims of vast historical processes but rarely have they been deemed worthy of historical enquiry *The Gentleman's Daughter* provides an account of the lives of genteel women the daughters of merchants the wives of lawyers and the sisters of gentlemen Based on a study of the letters diaries and account books of over 100 women from commercial professional and gentry families mainly in provincial England this book provides an account of the lives of genteel women in Georgian times It challenges the currently influential view that the period witnessed a new division of the everyday worlds of privileged men and women into the separate spheres of home and work Contrary to orthodoxy in the 18th century there was neither a loss of female freedoms nor a novel retreat into the home In their own writing genteel women throughout the Georgian era singled out their social and their emotional roles kinswoman wife mother housekeeper consumer hostess and member of polite society To make sense of their existence they invoked notions of family destiny love and duty regularity and economy gentility and propriety fortitude resignation and fate At the same time their social and intellectual horizons rolled majestically outward in their tireless writing no less than in their ravenous reading genteel women embraced a world far beyond the boundaries of their parish while an array of new public arenas emerged for the entertainment of the proper and the prosperous assembly rooms concert series theatre seasons circulating libraries day time lectures urban walks and pleasure gardens as well as regular sporting fixtures and the assizes This lively often humorous study offers an unprecedented insight into the intimate and everyday lives of genteel women and will transform our understanding of the position of women in this period
