The Germans Of London:

Educating the Germans David Phillips, 2018-06-28 *Educating the Germans* examines the role of the British in the reconstruction of education in occupied Germany from 1945 to 1949. It covers war time planning for a future role in overseeing education at all levels in Germany, looks at policy and its implementation, describes the British personnel involved and their interaction with German authorities, and assesses the lasting effects of the British effort in securing the future development of education from Kindergarten to university in the emerging Federal Republic. Thoroughly researched and employing a wide range of sources in Britain and Germany, this is an important study for anyone looking to further their understanding of Germany and Britain's relationship with Germany in the immediate post war era. *The Statesman's Year-Book* M. Epstein, 2016-12-23 The classic reference work that provides annually updated information on the countries of the world.

Hitler, the Germans, and the Final Solution Ian Kershaw, 2008-05-28 This volume presents a comprehensive multifaceted picture both of the destructive dynamic of the Nazi leadership and of the attitudes and behavior of ordinary Germans as the persecution of the Jews spiraled into total genocide.

Germany - The Tides of Power Michael Balfour, 2004-03 Balfour explains the factors which have shaped the German social, political, and economic character. Tracing the movement from the Middle Ages right up to unification of Germany, he seeks to lead the reader to an understanding of modern Germany.

The Jews and Germans of Hamburg J A S Grenville, 2013-06-17 Based on more than thirty years of archival research, this history of the Jewish and German Jewish community of Hamburg is a unique and vivid piece of work by one of the leading historians of the twentieth century. The history of the Holocaust here is fully integrated into the full history of the Jewish community in Hamburg from the late eighteenth century onwards. J A S Grenville draws on a vast quantity of diaries, letters, and records to provide a macro level history of Hamburg interspersed with many personal stories that bring it vividly to life. In the concluding chapter, the discussion is widened to talk about Hamburg as a case study in the wider world. This book will be a key work in European history, charting and explaining the complexities of how a long established and well integrated German Jewish community became within the space of a generation victims of the Nazi Holocaust.

The End of the German Monarchy John Van der Kiste, 2017-11-07

The German Army League Marilyn Shevin Coetzee, 1990-06-28 This book traces the development of the German Army League from its inception through the earliest days of the Weimar Republic. Founded in January 1912, the League promoted the intensification of German militarism and the cultivation of German nationalism. As the last and second largest of the patriotic societies to emerge after 1890, the League led the campaign for army expansion in 1912 and 1913 and against the growing influence of socialism and pacifism within Germany. Attempting to harness popular and nationalist sentiment against the government's foreign and domestic policies by preying on Germans' fears of defeat and socialism, the League contributed to the polarization of German society and aggravated the international tensions which culminated in the Great War. Coetzee combines an analysis of the League's principal

personalities and policies with an exploration of the inner workings of local and regional branches arguing that rather than having served solely as a barometer of populist nationalist sentiment the League also reflected the machinations of men of education and prominence who believed that an unresponsive German government had stifled their own careers dealt ineffectually with the prospect of domestic unrest and squandered the nation's military superiority over its European rivals

English Modernism, National Identity and the Germans, 1890-1950 Petra Rau, 2016-05-13 This is the first systematic study to trace the way representations of Germanness in modernist British literature from 1890 to 1950 contributed to the development of English identity Petra Rau examines the shift in attitudes towards Germany and Germans from suspicious competitiveness in the late Victorian period to the aggressive hostility of the First World War and the curious inconsistencies of the 1930s and 1940s These shifts were no simple response to political change but the result of an anxious negotiation of modernity in which specific aspects of Englishness were projected onto representations of Germans and Germany in English literature and culture While this incisive argument clarifies and deepens our understanding of cultural and national politics in the first half of the twentieth century it also complicates current debates surrounding race and otherness in cultural studies Authors discussed include major figures such as Conrad Woolf Lawrence Ford Forster and Bowen as well as popular or less familiar writers such as Saki Graham Greene and Stevie Smith Accessibly written and convincingly argued Rau's study will not only be an important book for scholars but will serve as a valuable guide to undergraduates working in modernism literary history and European cultural relations *Propaganda and the German*

Cinema, 1933-1945 David Welch, 2001-03-23 This is the most comprehensive analysis to date of Nazi film propaganda in its political social and economic contexts from the pre war cinema as it fell under the control of the Propaganda Minister Joseph Goebbels through to the end of the Second World War David Welch studies more than one hundred films of all types identifying those aspects of Nazi ideology that were concealed in the framework of popular entertainment *The*
