The Gift Children:

The Gift Of A Child Jamie And Katrina Holtom, Often the birth of a child can prompt parents to turn more intentionally to God They think about nurturing their child s faith but soon discover that their children have much to teach them as well This book will help parents and grandparents aunts and uncles deepen their relationship with God and with their children by providing short reflections based on everyday experiences to which parents of young children can easily relate such as bath bed fears and food All parents of young children will easily be able to relate these experiences to their own Each devotion contains a scripture passage a reflection based on the authors experience as parents questions for reflection and a prayer This book was prompted by the tragic death of the Holtom s two year old son Lucas who was killed in a tornado in the summer of 2000 In an effort to capture the memories of their lives with him they wrote down the many daily activities and experiences they shared and these form the core of the manuscript It is not a manuscript for grieving parents but rather a way for anyone to take the time to celebrate the gift that children are to us *The Gift of a Child* Robert Snowden,Elizabeth Snowden,1993 The Gift of a Child is an easy to read book that gives clear and non technical information about childlessness caused by male infertility and how this childlessness can be resolved through the use of donor insemination DI The book is written in a question and answer form and covers the issues raised by those seeking or undergoing DI treatment It draws on the experience of couples whose own children were conceived by donor insemination and makes the knowledge gained by their experiences available to other childless couples The questions answered include What is DI How common is DI treatment How successful is DI How much does DI cost What happens at the time of treatment Who is responsible if the baby is handicapped at birth Does keeping DI hidden cause any problems How do family and friends react when told about DI What rights does the child have concerning knowledge of DI Will the same donor be used for a second baby Does the donor have any legal rights concerning the child How many times is a donor used What records are kept of treatment

The anthropologist Marcel Mauss in his famous exploration of the gift in primitive and archaic societies showed that the essential aspect of the exchange of presents involved the establishment of a social tie that bound the parties together above and beyond any material value of the objects exchanged He argued that these intangible mutual debts constituted the social fabric Godbout and Caill show that contrary to the modern assumption that societies function on the basis of market exchange and the pursuit of self interest the gift still constitutes the foundation of our social fabric The authors describe the gift not as an object but as a social connection perhaps the most important social connection because it creates a sense of obligation to respond in kind They examine the gift in a broad range of cases such as blood and organ donation volunteer work the bonds between friends couples and family Santa Claus the interaction between performers and their audience and the relation of the artist to society Written in an engaging manner The World of the Gift will appeal to anyone who is interested in how the world really operates **Tiger and Mouse The Gift of Helping Others (A Children's Book with**
