

Lessing held that the highest goal, theoretical and practical, of those striving to bring enlightenment to humanity, and philosophy's supreme gift to mankind, is to minimize as far as humanly possible the three principal causes of strife and division among men: religious differences, class differences, and national differences.

The Goal Of Humanity:

PATHS AND GOALS OF THE SPIRITUAL HUMAN BEING RUDOLF STEINER, 2015-06-29 Speaking to audiences in Denmark Germany and France Rudolf Steiner discusses a wide range of topics from positive and negative human soul capacities true self knowledge and karma to changes in human consciousness from ancient times to the modern era all in the context of the incarnation of Christ on earth The lectures illustrate the diversity of Steiner's approach when speaking to different audiences Reflecting on the polymath Novalis for example he is urgent about the responsibility of spiritual science to help humanity awaken to the new age A few months later talking of Hegel and deploring the fact that an interest in spiritual matters often fails to be accompanied by an equal interest in logical thought Steiner uses a dispassionate philosophical tone But throughout the lectures he is consistent in his view that spiritual science does not reject conventional science Trained philosophical thinking leads to different conclusions than materialism he says but there is nothing in the field of spiritual science that need be rejected by rigorous scientific thought Although the lectures were given to a variety of audiences ideas recur from different perspectives and in different contexts with strong thematic links binding them together These include the relationship between philosophy and science the nature of clairvoyance Christ's presence in the etheric realm reincarnation and karma the mystery drama The Portal of Initiation Christmas and its symbols and the transformation of consciousness that occurred when Christ incarnated physically on earth In the final lectures Rudolf Steiner speaks inspiringly about the Christmas festival contrasting the feeling of inwardness that people used to experience with the hectic cultural environment of modern cities However this does not lead Steiner to be nostalgic about the past Rather he states we should seek to recreate a mood of inwardness in a new way appropriate to our modern age and consciousness These lectures give us the tools to bring such a contemporary spiritual approach to our lives

Our Reason for

Being T. F. Leong, 2022-08-11 Ecclesiastes is a persuasive speech with a rhetoric so unique that it can be easily misunderstood It speaks powerfully to believers as well as nonbelievers because it addresses the question of the meaning of life in the most satisfying way The heart of this book is an expositional commentary that interprets Ecclesiastes as authoritative Scripture It seeks to recover the rhetoric of the speech in terms of its comprehensive message on the meaning of life as well as its compelling force to get the message across Preceding the expositional commentary is an introduction to Ecclesiastes that presents a new approach to outlining and reading Ecclesiastes as a coherent speech It also presents an overview of the forest the overall rhetorical flow of the speech from beginning to end This is to prevent one from getting lost

when immersed in the trees of the expositional commentary Following the expositional commentary are two topical studies to give Ecclesiastes the breadth and depth of coverage it deserves The first is an interdisciplinary exposition on the meaning of life The second is an interpretive essay to defend exegetically the interpretation of Ecclesiastes as a coherent speech **30**

Jipp, 2023-07-25 Paul is known as a theologian and indeed his writings yield rich theological insights But Paul was foremost a missionary and a pastor who wrote to real people and churches In this fresh approach to Pauline theology respected scholar Joshua Jipp brings Paul's pastoral concerns to the fore specifically his concern for human flourishing in his congregations Jipp argues that Paul's writings are best understood as invitations to a particular way of life one that is oriented toward the supreme good of experiencing life in God through participation in Christ For Paul Christ epitomizes the good life and enables others to live it While analyzing Paul's thought through this lens of well being and flourishing Jipp introduces conversation partners as points of comparison and contrast He interacts with ancient philosophy and modern positive psychology both of which also address the good life This important and substantial contribution to Pauline studies covers issues such as transcendence suffering and death relationships pursuit of Christian virtue and moral agency It will be a valuable resource for all students of Paul Now in paperback

The Ecological Crisis and the Logic of Capital Xueming Chen, 2017-09-11 The worsening environmental crisis has become a serious threat to mankind The search for a solution to this crisis must begin by understanding its causes Taking an eco socialist perspective *The Ecological Crisis and the Logic of Capital* explores the logic of capitalism as a fundamental cause of today s environmental crisis in particular the thirst for profit and the capitalist mode of production By demonstrating the inherent antagonism between capital and ecology this book argues that proposals to resolve the crisis within the capitalist system are utopian that proposed remedies relying on scientific progress alternative energies low carbon technologies or the introduction of ecological ethics and new attitudes toward Nature into market mechanisms are doomed to failure without a radical overhaul of the principles that govern capitalism
