The Golden The Brazen World Papers In Literature And History 1650 18:

The Golden and the Brazen World John M. Wallace, 2023-11-15 The Golden and the Brazen World Papers in Literature and History 1650 1800 examines the evolving relationship between literature and history inspired by Sir Philip Sidney's Defence of Poetry Sidney's distinction between poetry's golden world which idealizes and conveys moral truths and history's brazen world focused on detailed but often confusing facts frames the central theme By the 18th century this rivalry had softened into a collaborative exchange with poets drawing on historical subjects for inspiration and historians using narrative techniques to enhance their work This interdisciplinary dialogue reflects their shared roots in moral philosophy and their complementary efforts to illuminate human experience The essays in this collection based on lectures from the Clark Library showcase this intersection through specific case studies Topics range from Andrew Marvell's The First Anniversary and its political poetic implications to re-evaluations of John Dryden's Absalom and Achitophel Contributions also include Susan Staves exploration of legal history in 18th century marriage and James Chandler's analysis of Edmund Burke's influence on Wordsworth Together these essays reveal how literature and history shape and inform each other highlighting their combined potential to enrich intellectual and cultural understanding This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 **Imagining the**

Nation in Seventeenth-Century English Literature Daniel Cattell, Philip Schwyzer, 2020-11-25 This volume brings together new work on the image of the nation and the construction of national identity in English literature of the seventeenth century The chapters in the collection explore visions of British nationhood in literary works including Michael Drayton and John Selden's Poly Olbion and Andrew Marvell's Horatian Ode shedding new light on topics ranging from debates over territorial waters and the free seas to the emergence of hyphenated identities and the perennial problem of the Picts Concluding with a survey of recent work in British studies and the history of early modern nationalism this collection highlights issues of British national identity cohesion and disintegration that remain undeniably relevant and topical in the twenty first century This book was originally published as a special issue of the journal The Seventeenth Century **The**

Cambridge Companion to Andrew Marvell Derek Hirst, Steven N. Zwicker, 2011 A set of specially commissioned essays forming a fresh understanding of the poet within his time and place **Poems Containing History** Gary

Grieve-Carlson, 2013-11-08 Ezra Pound's definition of an epic as a poem containing history raises questions how can a poem contain history And if it can does it help us to think about history in ways that conventional historiography cannot Poems Containing History Twentieth Century American Poetry's Engagement with the Past by Gary Grieve Carlson argues that twentieth century American poetry has contained and helped its readers to think about history in a variety of provocative and

powerful ways Tracing the discussion of the relationship between poetry and history from Aristotle's Poetics to Norman Mailer's The Armies of the Night and Hayden White's Metahistory the book shows that even as history evolves into a professional academic discipline in the late nineteenth century and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects twentieth century American poets continue to take history as the subject of their major poems Sometimes they endorse the views of mainstream historians as Stephen Vincent Benét does in John Brown's Body but more often they challenge them as do Robert Penn Warren in Brother to Dragons Ezra Pound in The Cantos or Charles Olson in The Maximus Poems In Conquistador Archibald MacLeish illustrates Aristotle's claim that poetry tells more philosophical truths about the past than history does while in Paterson William Carlos Williams develops a Nietzschean suspicion of history's value Three major American poets T S Eliot in Four Quartets Hart Crane in The Bridge and Carolyn Forché in The Angel of History present different challenges to professional historiography's assumption that the past is best understood in strictly material terms Poems Containing History devotes chapters to each of these poets and offers a clear sense of the seriousness with which American poetry has engaged the past as well as the great variety of those engagements

Hammond, 2024-02-29 The English Civil War was a war of words as well as a military conflict with supporters of the king and parliament arguing over the meaning of God liberty nature people law and other central concepts Words at War explores these arguments which continue to shape the political and cultural landscape of the modern world **An Andrew Marvell**

George McKenna ranges across the entire panorama of American history to track the development of American patriotism

That patriotism shaped by Reformation Protestantism and imbued with the American Puritan belief in a providential errand has evolved over 350 years and influenced American political culture in both positive and negative ways McKenna shows The germ of the patriotism an activist theology that stressed collective rather than individual salvation began in the late 1630s in New England and traveled across the continent eventually becoming a national phenomenon Today American patriotism still reflects its origins in the seventeenth century By encouraging cohesion in a nation of diverse peoples and inspiring social reform American patriotism has sometimes been a force for good But the book also uncovers a darker side of the nation s patriotism a prejudice against the South in the nineteenth century for example and a tendency toward nativism and anti Catholicism Ironically a great reversal has occurred and today the most fervent believers in the Puritan narrative are the former outsiders Catholics and Southerners McKenna offers an interesting new perspective on patriotism s role throughout American history and he concludes with trenchant thoughts on its role in the post 9 11 era

Monsieur Francisque's Touring Troupe and Anglo-French Theatrical Culture, 1690-1770 Robert V. Kenny, 2025-04-08 This deeply accomplished and lively monograph charts the career of a travelling French actor manager whose impact and significance have been overlooked The inimitable Monsieur Francisque Francois Moylin c 1690 1770 was an extraordinary actor manager and key figure in the early eighteenth century theatre world of both England and France Leader of a family of gifted performers including his niece the famous dancer choreographer Marie Sall he took them to every corner of France and beyond playing before Louis XV as well as George I and II of England However despite his fame among his contemporaries Francisque s career has been largely overlooked Robert V Kenny resurrects Moylin from the footnotes of theatre history with this detailed case study of an entrepreneurial actor manager his troupe and their repertory Following them from the Paris fairs to the courts of Europe via one of the worst riots in English theatre history the book showcases the giddy range of activities and performances undertaken by this family and their associates Through the careful piecing together of diverse
