The Model Company Town Urban Design Through Private Enterprise In Nineteenth Century New England:

The Model Company Town John S. Garner, 1984

The Company Town John Garner, 1992-10-01 Built by

industrialists whose early businesses contributed to the escalation of the Industrial Revolution company towns flourished in countries that embraced capitalism and open market trading In many instances the company town came to symbolize the wrecking of the environment especially in places associated with extractive industries such as mining and lumber milling Some resident industrialists however took a genuine interest in the welfare of their work forces and in a number of instances hired architects to provide a model environment Overtaken by time these towns were either abandoned or caught up in suburban growth The most thorough going and only international assessment of the company town this collection of essays by specialists and authorities of each region offers a balanced account of architectural and social history and provides a better understanding of the architectural and urban experiences of the early industrial age

Expansion of Everyday Life

(p) Daniel E. Sutherland, 2006 6 portrays ordinary Americans swept up in an era of social and geographical expansion During this period five states joined the Union Kansas West Virginia Nevada Nebraska and Colorado and the population reached nearly forty million The westward movement was given a boost by the completion of the first intercontinental railroad and migration from farms and villages to towns and cities increased accompanied by a shift from rural occupations and crafts to industrial tasks and trades Overall the pursuit of middle class status became a driving force

Suburban Alchemy

Nicholas Dagen Bloom, 2001 In Suburban Alchemy 1960s New Towns and the Transformation of the American Dream

Nicholas Dagen Bloom examines the new town movement of the 1960s which sought to transform the physical and social environments of American suburbs by showing that idealism could be profitable Bloom offers case studies of three of the movement's more famous examples Reston Virginia Columbia Maryland and Irvine California to flesh out his historical account In each case innovative planners mixed land uses and housing types refined architectural graphic and landscape design offered well defined village and town centers and pioneered institutional planning As Bloom demonstrates these efforts did not uniformly succeed and attempts to reshape community life through design notably faltered However despite frequent disappointments and compromises the residents have kept the new town ideals alive for over four decades and produced a vital form of suburban community that is far more complicated and interesting than the early vision promoted by the town planners Lively chapters illustrate efforts in local politics civic spirit social and racial integration feminist innovations and cultural sponsorship Suburban Alchemy should be of interest to scholars of U S urban history planning history and community development as well as the general reader interested in the development of alternative communities in the United States

Hopedale Edward K. Spann, 1992 Edward Spann's study of a town shaped by two distinct dreams of

a good society provides new insight into the development of utopian societies for those interested in utopian and religious communities nineteenth century American history urban history and business communities book jacket

American

Architecture Leland M. Roth, 2018-05-04 More than fifteen years after the success of the first edition this sweeping introduction to the history of architecture in the United States is now a fully revised guide to the major developments that shaped the environment from the first Americans to the present from the everyday vernacular to the high style of aspiration Eleven chronologically organized chapters chart the social cultural and political forces that shaped the growth and development of American towns cities and suburbs while providing full description analysis and interpretation of buildings and their architects The second edition features an entirely new chapter detailing the green architecture movement and architectural trends in the 21st century Further updates include an expanded section on Native American architecture and contemporary design by Native American architects new discussions on architectural education and training more examples of women architects and designers and a thoroughly expanded glossary to help today's readers The art program is expanded including 640 black and white images and 62 new color images Accessible and engaging American Architecture continues to set the standard as a guide study and reference for those seeking to better understand the rich history of architecture in the United States

Hope in Hard Times Timothy Kelly, Margaret Power, Michael Cary, 2016-06-03 Of the many recipients of federal support during the Great Depression the citizens of Norvelt Pennsylvania stand out as model reminders of the vital importance of New Deal programs Hoping to transform their desperate situation the 250 families of this western Pennsylvania town worked with the federal government to envision a new kind of community that would raise standards of living through a cooperative lifestyle and enhanced civic engagement Their efforts won them a nearly mythic status among those familiar with Norvelt's history *Hope in Hard Times* explores the many transitions faced by those who undertook this experiment With the aid of the New Deal these residents who hailed from the hardworking and underserved class that Jacob Riis had called the other half a generation earlier created a middle class community that would become an exemplar of the success of such programs Despite this many current residents of Norvelt the children and grandchildren of the first inhabitants oppose government intervention and support political candidates who advocate scrutinizing and even eliminating public programs Authors Timothy Kelly Margaret Power and Michael Cary examine this still unfolding narrative of transformation in one Pennsylvania town and the struggles and successes of its original residents against the backdrop of one of the most ambitious federal endeavors in U S history

Landscape of Industry Worcester Historical Museum, 2009 An illustrated history of the cradle of American industrialization

Place/Culture/Representation James S. Duncan, David Ley, 2013-04-15 Spatial and cultural analysis have recently found much common ground focusing in particular on the nature of the city *Place Culture Representation* brings together new and established voices involved in the reshaping of cultural geography The authors argue that as we write our geographies we are not just representing some reality we are creating meaning Writing becomes as much about the author as it is about purported geographical reality The issue becomes not scientific truth as the end but the interpretation of cultural constructions as the means Discussing authorial power discourses

of the other texts and textuality landscape metaphor the sites of power knowledge relations and notions of community and the sense of place the authors explore the ways in which a more fluid and sensitive geographer's art can help us make sense of ourselves and the landscapes and places we inhabit and think about *Black Powder, White Lace* Margaret M. Mulrooney, 2022-12-09 Twenty years ago Margaret Mulrooney's history of the community of Irish immigrant workers at the du Pont powder yards *Black Powder White Lace* was published to wide acclaim Now as much of the materials Mulrooney used in her research are now electronically available to the public and as debates about immigration continue to rage a new edition of the book is being published to remind readers of the rich materials available on the du Pont workers and of Mulrooney's powerful conclusions about immigrant communities in America Explosives work was dangerous but the du Ponts provided a host of benefits to their workers As a result the Irish remained loyal to their employers convinced by their everyday experiences that their interests and the du Ponts were one and the same Employing a wide array of sources Mulrooney turns away from the worksite and toward the domestic sphere revealing that powder mill families asserted their distinctive ethno religious heritage at the same time as they embraced what U S capitalism had to offer
