Hearings, Reports and Prints of the House Committee on Interstate and Foreign Commerce United States. Congress. House. Committee on Interstate and Foreign Commerce, 1974 *Family Medicine* J. L. Buckingham, E. P. Donatelle, W. E. Jacott, M. G. Rosen, Robert B. Taylor, 2013-06-29 JOHN S MILLIS In 1966 the Citizens Commission on Graduate Medical Education observed that the explosive growth in biomedical science and the consequent increase in medical skill and technology of the twentieth century had made it possible for physicians to respond to the episodes of illness of patients with an ever increasing effectiveness but that the increase in knowledge and technology had forced most physicians to concentrate upon a disease entity an organ or organ system or a particular mode of diagnosis or therapy As a result there had been a growing lack of continuing and comprehensive patient care The Commission expressed the opinion that Now in order to bring medicine s enhanced diagnostic and therapeutic powers fully to the benefit of society it is necessary to have many physicians who can put medicine together again The Commission proceeded to recommend the education and training of substantial numbers of Primary Physicians who would by assuming primary responsibility for the patient s welfare in sickness and in health provide continuing and comprehensive health care to the citizens of the United States In 1978 it is clear that the recommendation has been accepted by the public the medical profession and medical education There has been a vigorous response in the development of family medicine and in the fields of internal medicine pediatrics and obstetrics One is particularly impressed by the wide acceptance on the part of medical students of the concept of the primary physician Dr John S The Coming Collapse of America Ken Casey, 2016-09-16 This book is designed to demonstrate the precarious position of this country due to its huge debt By 2020 the debt GDP ratio of this country could well exceed 120 percent which is considered the tipping point by the IMF After such time this country will suffer inflation which will dampen investment diminish the real value of savings and result in a recession or depression The primary solution for this country is to reform its entitlement programs and balance the budget The book addresses how this country can enact a balanced budget amendment to the US Constitution to stem this nations huge debt and how membership in the Libertarian Party can foster this enactment This book shows how to privatize social security Medicare and Medicaid through individual savings accounts The book also shows how this country can develop a low cost catastrophic hospital plan as well as a low cost GP family doctor insurance plan **The New Pediatrics** Dorothy Pawluch, 2017-07-05 When antibiotics became readily available in the 1950s the danger of life threatening infectious childhood diseases virtually disappeared In that era pediatricians broadened the core professional task of their specialty the prevention and treatment of such diseases to incorporate the behavioral and psychosocial problems of children and adolescents Pediatricians themselves began to refer to

this changing emphasis as the new pediatrics and to see the trend as a natural progression of their specialty into new areas of care At the same time there arose widespread disaffection among practicing general pediatricians defection to other areas of practice and a decline in the popularity of pediatrics as a specialty choice In analyzing the emergence of the new pediatrics as a case study within medical sociology Pawluch shows how professional concerns and interests influence debate around social problems As sociologists began to take greater interest in the problems of childhood and as children's lives became increasingly medicalized as some have argued it is at least in part because of pediatricians willingness to endorse medical definitions for certain social problems and to provide treatment for them Pawluch's underlying concern is that medical professionals have begun to make claims for authority in the definition of what constitutes the social problems of childhood Among the topics she examines are the dissatisfied pediatrician syndrome the potential for a crisis in oversupply of pediatricians and competing providers of services the push for expansion into new areas of care and possible future developments in this specialty The Journal of Medical Education ,1971 **Bulletin of the History of Medicine** ,1983 Vols for 1939 include the Transactions of the 15th annual meetings of the American Association of the History of Medicine 1939 **Journal of the American Medical Association** American Medical Association,1917 **National Health Insurance-implications** United States.
