The Modernization Of The Chinese Salt Administration 1900 19:

The Modernization of the Chinese Salt Administration, 1900-1920 Samuel Adrian Miles Adshead, 1970 **Salt and Civilization** S.A.M. Adshead, 2016-07-27 Highly recommended as a thorough examination of the commodity history of salt The Geographical Journal Salt has been called the primordial addiction It has been an object of almost universal consumption since Neolithic times This book sets out to place the particular histories of salt in a global perspective and write the history of a human commodity as a theme in world history From pagan man through classical Rome Byzantium early Islam the Dark Ages the Renaissance to the modern world the production distribution consumption and taxation of salt are examined The author shows how a history of salt cannot be separated from the histories of commerce medicine diet cooking taxation invention and war Although taken for granted today salt has been of critical economic and cultural importance to countries and peoples throughout history the instigator and catalyst to actions and events ranging from the first maritime expedition of Muslim forces to Columbus's discovery of America After Salt and Civilization salt can not be taken for granted again

China's Last Imperial Frontier Xiuyu Wang, 2011-01-01 Combining rich documentation with rigorous analysis China's Last Imperial Frontier illuminates the internal dynamics of regional power struggle and local resistance that shaped the empire's response to foreign imperialisms in Tibet The book's extensive engagement with the issues of indigenous society state capacities in frontier settings interagency struggle and regional power competition makes it indispensable reading for students of Sino-Tibetan relations and Qing history **Government, Imperialism and Nationalism in China** Chihyun Chang, 2013-08-06 The Chinese Maritime Customs Service which was led by British staff is often seen as one of the key agents of Western imperialism in China the customs revenue being one of the major sources of Chinese government income but a source much of which was pledged to Western banks as the collateral for and interests payments on massive loans This book however based on extensive original research considers the lower level staff of the Chinese Maritime Customs Service and shows how the Chinese government struggling to master Western expertise in many areas pursued a deliberate policy of encouraging lower level staff to learn from their Western superiors with a view to eventually supplanting them a policy which was successfully carried out The book thereby demonstrates that Chinese engagement with Western imperialists was in fact an essential part of Chinese national state building and that what looked like a key branch of Chinese government delegated to foreigners was in fact very much under Chinese government control The Cambridge History of China John King Fairbank, Denis Crispin Twitchett, 1983 International scholars and sinologists discuss culture economic growth social change political processes and foreign influences in China since the earliest pre-dynastic period **The Merchants of Zigong** Madeleine Zelin, 2005 From its dramatic expansion in the early nineteenth century to its decline in the late 1930s salt production in Zigong was one of the largest and only indigenous large scale industries in China Madeleine Zelin's history details the novel ways in which Zigong merchants mobilized capital through financial industrial networks and spurred growth

by developing new technologies capturing markets and building integrated business organizations She provides new insight into the forces and institutions that shaped Chinese economic and social development independent of Western or Japanese influence and challenges long held beliefs that social structure state extraction the absence of modern banking and cultural bias against business precluded industrial development in China

The Oxford History of the British Empire: Volume

V: Historiography Robin Winks, 2001-07-26 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

political leaders frontline enforcers organized traffickers and petty runners Thai uncovers how different regimes policed maritime trade and the unintended consequences their campaigns unleashed China's War on Smuggling traces how defiance and repression redefined state power offering new insights into modern Chinese social legal and economic history **Paths toward the Modern Fiscal State** Wenkai He, 2013-03-01 Wenkai He shows why England and Japan facing crises in public finance developed the tools and institutions of a modern fiscal state while China facing similar circumstances did not He's explanation for China's failure at a critical moment illuminates one of the most important but least understood transformations of the modern world **Catalog of Copyright Entries.
