Norem-Hebeisen,Kenneth J. Gergen,1981 **Constructing Questions for Interviews and Questionnaires** William Foddy,William H. Foddy,1993 The success of any interview or questionnaire depends upon good question design yet most of the available literature has been devoted to interview techniques rather than question formulation This practical book provides a coherent theoretical basis for the construction of valid and reliable questions for interviews and questionnaires The theoretical framework used in the book provides a set of principles that when followed will increase the validity and reliability of verbal data collected for social research Dr Foddy outlines the problems which can arise when framing questions with clarity and commonsense He has written a wide ranging useful book for survey practitioners working in the social sciences Psychology of Urban Life Edward Sadala,David Stea,1978 Information Sur Les Sciences Sociales

International Social Science Council,1978 Criminology Hans W. Mattick,Edward Sagarin,1979-06-01 The Development of a Postmodern Self Michael R. Wood,Louis A. Zurcher,1988-03-11 Wood and Zurcher suggest that the social self its experience and organization reflects the great transformation of society from industrial to postindustrial Wood and Zurcher have contributed to our social psychological understanding of self development in several ways They pack information about theories of modern self hood into a well researched and accessible book Readers will find a resource on theories of the postmodern self here The authors also introduce a creative use of computerized content analysis which they successfully demonstrate by transforming personal documents into social scientific data Contemporary Sociology According to various observers the postmodern self represents changes in contemporary culture from rationality and unemotional performance to irrationality and mysticism from institutional standards and duty to society to individual standards and duty to self from structure and stability to transience and experimentation Through an analysis of diaries from nineteenth and twentieth century Americans this study deals with the nature of the postmodern self It provides a framework for understanding the ideas that collectively comprise postmodern self theory and presents empirical data concerning its historical validity The book reflects the use of a computer approach in which the statistical incidence of particular words is
