The Mysteries Of Identity A Theme In Modern Literature Phoenix Series:

The Mysteries of Identity Robert Woodrow Langbaum, 1982 **Fullness of Dissonance** Daniel C. Melnick, 1994 During the modern period the bond between music and literature constituted a crucial and influential idea for Conrad and Eliot Mann and Rilke and many other writers For modern novelists in particular this idea has provided the model and rationale for the experimental liberation of narrative form and its desired effect on the reader Critics later in the twentieth century have undertaken analyses of various contrapuntal sonata and other musical structures in fiction and some critics have studied the influence of various composers on novelists Fullness of Dissonance is concerned with the related matter of how the aesthetics of music influenced the writers and texts of modern fiction D.H. Lawrence's The Rainbow and Women in Love Doo-Sun Ryu, 2005 Focusing on D H Lawrence s concept of essential criticism which was introduced in his posthumously published Study of Thomas Hardy and his statement that every work of art adheres to some system of morality But it must contain the essential criticism on the morality to which it adheres this book examines the ways in which Lawrence presents his ideas in his major novels The Rainbow and Women in Love It explores how this concept plays a crucial role in his fiction as an other to the implied author s messages functioning differently as equivocation and creative strife respectively in The Rainbow and Women in Love the concept helps to make these novels more dynamic than commonly realized *Subject Catalog, 1982* Library of Congress, 1982 **The Consciousness of D.H. Lawrence** Daniel J. Schneider, 1986 This biography of Lawrence is unlike any other in its focus on the essential character of the artist and in its synthesis of the facts of his life and thought It is written not for specialists but for general readers who wish to deepen their understanding of the development of Lawrence s thought and feeling over the course of his lifetime The author blends intellectual biography and psychology to focus on Lawrence s religious nature as a shaping force in his life **Spirituality for Youth-Work** Phil Daughtry, 2016-09-23 This book addresses a systemic gap in existing studies on human services and youth work While the notion of spirituality does make rare appearances in such literature it is often vaguely defined and underdeveloped both as a concept and as a mode of practice This ambiguity is symptomatic of the broader shift in the sociological context of Western and global societies that has been referred to variously as post modern late modern and post secular From the perspective of the relationship between human development and the spiritual theological we live in a time between times We have not yet worked out how to speak of spirit nor how to include its meanings in positive youth intervention and developments in our language for a public spiritual consciousness remain in a state of cultural flux This book offers a coherent vocabulary and narrative from which to construct a more explicit and deliberate practice of spiritual care education and professional identity for youth workers It speaks directly to youth work practitioners managers of youth services those providing youth work education and anyone with an interest in youth and spirituality research and practice British Fiction and Cross-Cultural Encounters C. Snyder, 2016-09-23 This book reveals that British modernists read widely in anthropology and ethnography sometimes

conducted their own fieldwork and thematized the challenges of cultural encounters in their fiction letters and essays

Ricorso and Revelation Evans Lansing Smith, 1995 *Ricorso and Revelation* traces the impact on Modernism of the archaeological discoveries of the Palace of Knossos the Royal Cemetery of Ur and the Tomb of Tutankhamen and the artifacts recovered from these sites showing how they entered the narrative strategies of the Modernist movement The author also develops a new argument about the four myth configurations the maze alchemy the Great Goddess and the Apocalypse which were of central importance to the literature of European Modernism between 1895 and 1946 studying their appearances in a wide range of European modernist writers and in the paintings of Picasso and the films of Jean Cocteau Drawing from a variety of theories on myth Smith suggests that each of these four myths represents a creative return to the origins ricorso a reduction of the raw materials of daily life to the fundamental elements of creation revelation followed by a recreation of the world cosmogenesis of the poet ontogenesis and of the text poesis I **The Phoenix Paradox** Gail Porter Mandell, 1984

This book traces D H Lawrence s development as a poet from his earliest to his latest poems Focusing on the revision of poems in the *Collected Poems* 1928 Mandell uncovers the implicit auto biographical narrative that underlies the collection and that dictates its structure Lawrence rearranged and rewrote the poems to conform to a chronologic thematic and mythic plan a plan he hints at in the unpublished Foreword to *Collected Poems* In its final form the poetry tells the story of Lawrence s demon a figure of his essential self by recounting the chronological development of the new from the old self Comparing form and content of versions of representative poems from the collection Mandell analyzes the evaluation not only of Lawrence s poetic style but also of his ideas concerning human and physical nature She contends that Lawrence was a mature poet with a developed system of poetic and philosophical thought by 1917 when he published *Look We Have Come Through* At that time he rewrote extensively Through comparison of selected poems several of which appear in print for the first time we can reproduce Lawrence s emendations and thus depict the creative mind at work *The Lotus and the Lion* J. Jeffrey Franklin, 2011-03-15

Buddhism is indisputably gaining prominence in the West as is evidenced by the growth of Buddhist practice within many traditions and keen interest in meditation and mindfulness In *The Lotus and the Lion* J Jeffrey Franklin traces the historical and cultural origins of Western Buddhism showing that the British Empire was a primary engine for curiosity about and then engagement with the Buddhisms that the British encountered in India and elsewhere in Asia As a result Victorian and Edwardian England witnessed the emergence of comparative religious scholarship with a focus on Buddhism the appearance of Buddhist characters and concepts in literary works the publication of hundreds of articles on Buddhism in popular and intellectual periodicals and the dawning of syncretic religions that incorporated elements derived from Buddhism In this fascinating book Franklin analyzes responses to and constructions of Buddhism by popular novelists and poets early scholars of religion inventors of new religions social theorists and philosophers and a host of social and religious commentators Examining the work of figures ranging from Rudyard Kipling and D H Lawrence to H P Blavatsky

Thomas Henry Huxley and F Max M ller Franklin provides insight into cultural upheavals that continue to reverberate into our own time Those include the violent intermixing of cultures brought about by imperialism and colonial occupation the trauma and self reflection that occur when a Christian culture comes face to face with another religion and the debate between spiritualism and materialism The Lotus and the Lion demonstrates that the nineteenth century encounter with Buddhism subtly but profoundly changed Western civilization forever
