We Are Made of Stories Leslie Umberger, 2022-10-04 A richly illustrated history of self taught artists and how they changed American art Artists without formal training who learned from family community and personal journeys have long been a presence in American art But it wasn't until the 1980s with the help of trailblazing advocates that the collective force of their creative vision and bold self definition permanently changed the mainstream art world In *We Are Made of Stories* Leslie Umberger traces the rise of self taught artists in the twentieth century and examines how despite wide ranging societal racial and gender based obstacles they redefined who could be rightfully seen as an artist and revealed a much more diverse community of American makers Lavishly illustrated throughout *We Are Made of Stories* features more than one hundred drawings paintings and sculptures ranging from the narrative to the abstract by forty three artists including James Castle Thornton Dial William Edmondson Howard Finster Bessie Harvey Dan Miller Sister Gertrude Morgan the Philadelphia Wireman Nellie Mae Rowe Judith Scott and Bill Traylor The book centralizes the personal stories behind the art and explores enduring themes including self definition cultural heritage struggle and joy and inequity and achievement At the same time it offers a sweeping history of self taught artists the critical debates surrounding their art and how museums have gradually diversified their collections across lines of race gender class and ability Recasting American art history to embrace artists who have been excluded for too long *We Are Made of Stories* vividly captures the power of art to show us the world through the eyes of another Published in association with the Smithsonian American Art Museum Exhibition Schedule Smithsonian American Art Museum Washington DC July 1 2022 March 26 2023

Encyclopedia of Asylum Therapeutics, 1750-1950s Mary de Young, 2015-02-12 The mentally ill have always been with us but once confined in institutions their treatment has not always been of much interest or concern This work makes a case for why it should be Using published reports studies and personal narratives of doctors and patients this book reveals how therapeutics have always been embedded in their particular social and historical moment and how they have linked extant medical knowledge practitioner skill and the expectations of patients who experienced their own disorders in different ways Asylum therapeutics during three centuries are detailed in encyclopedic entries including awakening patients with firecrackers easing brain congestion by bleeding extracting teeth and excising parts of the colon dousing with water raising or lowering body temperature shocking with electricity or toxins and penetrating the brain with ice picks
