Should corrupt the world Alfred Lord Tennyson SHADOW BOXING WITH THE GODS is a tour through many traditions and
beliefs in the history of Man to arrive at the truths we recognize today It is a book of aggressive but persistently rational
thought which deconstructs the beliefs and theologies that have accompanied mankind from the earliest times and often
controlled human destinies While many of these beliefs help people to find meaning to the great mystery of life they
nevertheless crave to be understood in the context of our modern environment Based on the core truth that the greatest
ideas if carried to extremes can become ridiculous and hurt people the book traces the diverse strands of human belief in
various civilizations starting with fantasy and myth making Ideas about life divinity nature and community have enriched
existence but have also caused mayhem and tyranny through blind beliefs that fed fundamentalism and terror The Nazi
holocaust the burning of witches and heretics at the stake the indignity of widowhood and caste practices in India were all
the result of beliefs that overpowered the minds of large sections of people Today more than ever before we are equipped
with science reason and information to embrace the spiritual and the humane while freeing ourselves from the clutches of
superstition and ignorance thus achieving a far deeper understanding about our individual and collective existence *The*
