## **The Guilty Environmentalist:**

The Guilty Environmentalist Arthur O'Donnell, 2003 The Guilty Environmentalist is a collection of essays musings and political fantasies from award winning humorist and energy journalist Arthur O'Donnell Join the Guilty Environmentalist as he trips lightly through this exploration of the history and foibles of the electric utility industry from the very beginnings of the Age of Electricity to the aftermath of California's most recent energy crisis Selected from the best of the Bottom Lines columns carried in the nationally acclaimed California Energy Markets newsletter over the past decade The Guilty Environmentalist provides a unique and frequently hilarious perspective on a crucial industry that most people take for granted until the lights go out

*The Skeptical Environmentalist* Bjørn Lomborg, 2001 The Skeptical Environmentalist challenges widely held beliefs that the environmental situation is getting worse and worse The author himself a former member of Greenpeace is critical of the way in which many environmental organisations make selective and misleading use of the scientific evidence Using the best available statistical information from internationally recognised research institutes Bjørn Lomborg systematically examines a range of major environmental problems that feature prominently in headline news across the world His arguments are presented in non technical accessible language and are carefully backed up by over 2500 footnotes allowing readers to check sources for themselves Concluding that there are more reasons for optimism than pessimism Bjørn Lomborg stresses the need for clear headed prioritisation of resources to tackle real not imagined problems The Skeptical Environmentalist offers readers a non partisan stocktaking exercise that serves as a useful corrective to the more alarmist accounts favoured by campaign groups and the media

The Environmentalist's Dilemma Arno Kopecky, 2021-10-19 For readers of Ronald Wright Rebecca Solnit and Yuval Noah Harari comes a compelling inquiry into our relationship with humanity's latest and greatest calamity In The Environmentalist's Dilemma award winning journalist Arno Kopecky zeroes in on the core predicament of our times the planet may be dying but humanity's doing better than ever To acknowledge both sides of this paradox is to enter a realm of difficult decisions Should we take down the government or try to change it from the inside Is it okay to compare climate change to Hitler Is hope naive or indispensable How do you tackle collective delusion Should we still have kids And can we take them to Disneyland Inquisitive and relatable Kopecky strikes a rare note of optimistic realism as he guides us through the moral minefields of our polarized world From start to finish The Environmentalist's Dilemma returns to the central question How should we engage with the story of our times
