The Moral Economy Of The Peasant:

The Moral Economy of the Peasant James C. Scott, 1977-09-10 James C Scott places the critical problem of the peasant household subsistence at the center of this study The fear of food shortages he argues persuasively explains many otherwise puzzling technical social and moral arrangements in peasant society such as resistance to innovation the desire to own land even at some cost in terms of income relationships with other people and relationships with institutions including the state Once the centrality of the subsistence problem is recognized its effects on notions of economic and political justice can also be seen Scott draws from the history of agrarian society in lower Burma and Vietnam to show how the transformations of the colonial era systematically violated the peasants moral economy and created a situation of potential rebellion and revolution Demonstrating keen insights into the behavior of people in other cultures and a rare ability to generalize soundly from case studies Scott offers a different perspective on peasant behavior that will be of interest particularly to political scientists anthropologists sociologists and Southeast Asianists The book is extraordinarily original and valuable and will have a very broad appeal I think the central thesis is correct and compelling Clifford Geertz In this major work Scott views peasants as political and moral actors defending their values as well as their individual security making his book vital to an understanding of peasant politics Library Journal moral economy of the peasant James C. the transformations of the colonial era systematically violated the peasants moral economy and created a situation of potential rebellion and revolution Demonstrating keen insights into the behavior of people in other cultures and a rare ability to generalize soundly from case studies Scott offers a different perspective on peasant behavior that will be of interest particularly to political scientists anthropologists sociologists and Southeast Asianists The book is extraordinarily original and valuable and will have a very broad appeal I think the central thesis is correct and compelling Clifford Geertz In this major work Scott views peasants as political and moral actors defending their values as well as their individual security making his book vital to an understanding of peasant politics Library Journal James C Scott is professor of political science at Yale University Peasant Economics Frank Ellis,1993-11-25 This is a revised and expanded edition of a popular textbook on the economics of farm households in developing countries The second edition retains the same building blocks designed to explore household decision making in a social context Key topics are efficiency risk time allocation gender agrarian contracts farm size and technological change For these and other topics household economic behaviour represents the outcome of social interactions within the household and market interactions outside the household A new chapter on the environment combines exposition of economic tools not previously covered in the book with examination of household and community decision making in relation to environmental resources **Colonial 'reformation' in the Highlands of Central Sulawesi, Indonesia, 1892-1995** Albert Schrauwers,2000-01-01 Schrauwers examines the profound impact of a Dutch Protestant Mission on the religion and culture of the To Pamona people of the highlands of Central Sulawesi Indonesia Peasant Politics of the Twenty-First Century Marc Edelman,2024-02-15 Peasant Politics of the Twenty First Century illuminates the transnational agrarian movements that are remaking rural society and the world s food and agriculture systems Marc Edelman explains how peasant movements are staking their claims from farmers fields to massive protests around the world shaping heated debates over peasants rights and the very category of peasant within the agrarian organizations and in the United Nations Edelman chronicles the rise of these movements their objectives and their alliances with environmental human rights women s and food justice groups The book scrutinizes high profile activists and the forgotten genealogies and policy implications of foundational analytical frameworks like moral economy and concepts such as food sovereignty and civil society Peasant Politics of the Twenty First Century charts the struggle of agrarian movements in the face of land grabbing counter agrarian reform and a looming climate catastrophe and celebrates engaged research from Central America to the UN Human Rights Council in Geneva **Transforming Peasants** Judith Pallot,1998-07-15 The essays in this collection explore the social construction of the Russian peasantry in the period between Emancipation and Collectivisation and the impact of these constructions on Tsarist and Bolshevik agrarian policy The international group of authors represent different trends in the historical sociological and geographical investigations of the East European peasantry and draw both upon the insights of cultural studies and recently available archival materials to throw new light on the relationship between peasantry

Comaroff, 1993-11 What role does ritual play in the everyday lives of modern Africans How are so called traditional cultural forms deployed by people seeking empowerment in a world where modernity has failed to deliver on its promises Some of the essays in *Modernity and Its Malcontents* address familiar anthropological issues like witchcraft myth and the politics of reproduction but treat them in fresh ways situating them amidst the polyphonies of contemporary Africa Others explore distinctly nontraditional subjects among them the Nigerian popular press and soul eating in Niger in such a way as to confront the conceptual limits of Western social science Together they demonstrate how ritual may be powerfully mobilized in the making of history present and future Addressing challenges posed by contemporary African realities the authors subject such concepts as modernity ritual power and history to renewed critical scrutiny Writing about a variety of phenomena they are united by a wish to preserve the diversity and historical specificity of local signs and practices voices and perspectives Their work makes a substantial and original contribution toward the historical anthropology of Africa The contributors all from the Africanist circle at the University of Chicago are Adeline Masquelier Deborah Kaspin J Lorand Matory Ralph A Austen Andrew Apter Misty L Bastian Mark Auslander and Pamela G Schmoll

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
