

Skin Pathology

Didier Musso

Skin Pathology:

The Histopathology of the Diseases of the Skin Paul Gerson Unna, 1896 Literature Search National Library of Medicine (U.S.), 1984 *Dermatopathology Primer of Cutaneous Tumors* Omar P. Sanguenza, Sara Moradi, Parisa Mansoori, Saleha Aldawsari, Amir Al-Dabagh, Amany Abdulgader Fathaddin, Steven R. Feldman, 2015-07-21

Dermatopathology Primer of Cutaneous Tumors presents a detailed overview of the most common skin neoplasms. For each neoplasm, the epidemiology, pathophysiology, clinical features, clinical variants, and special studies are presented in a succinct bulleted form. Extensive illustrations demonstrate each neoplasm's characteristic features as well as those of other tumors in the histological differential. The book covers both benign and malignant cysts, epidermal melanocytic, lymphoid, and soft tissue neoplasms. It complements the *Dermatopathology Primer of Inflammatory Diseases* written by authors of the same team. These books introduce the basic concepts of dermatopathology to medical students and residents training in pathology and dermatology as well as to other health care professionals seeking a resource for a basic understanding of dermatopathology. Offered in an easy-to-read format, the book provides a basic understanding of dermatopathology on which further deeper learning can be added as well as a quick visual reference to refresh the learner on the important points of each diagnosis. A reference section and glossary are included for the benefit of non-dermatology specialists.

Pathology of the Skin

E-Book J. Eduardo Calonje, Thomas Brenn, Alexander J. Lazar, Phillip H. McKee, 2011-09-09

McKee's *Pathology of the Skin* is the most complete in-depth resource on dermatopathology, covering etiology, pathogenesis, disease mechanisms, and recent genetic, molecular, and basic science data. Drs. J. Eduardo Calonje, Thomas Brenn, Alexander Lazar, and Phillip McKee present new illustrations, updated chapters, and coverage of new entities such as lymphomas, cutaneous tissue tumors, diseases of the nail, and more in this extensively revised fourth edition. This new edition is an absolute must for practicing dermatopathologists and general pathologists who sign out skin biopsies. It has over 5,000 images and new chapters on the pathology of HIV/AIDS, conjunctival tumors, sentinel lymph node biopsies, laboratory techniques in dermatopathology, and a section on the pathology of salivary gland tumors. Also, the chapters on disorders of keratinization and diseases of the nails have been completely updated. With access to the full-text image and video bank online at www.expertconsult.com, you'll have convenient access to the guidance you need to formulate the most accurate reports. Recognize all the histological variations of any skin condition through coverage that integrates dermatopathology, clinical correlations, and clinical photographs. Easily reference key points thanks to bulleted lists of clinical features and differential diagnosis tables. Diagnose accurately using over 5,000 histopathologic and clinical illustrations that demonstrate the range of histologic manifestations. Stay current with updated and expanded coverage of diseases of the nail, cutaneous connective tissue tumors, tumors of the lymphoreticular system, and conjunctiva specimens. Minimize errors and formulate accurate reports by applying up-to-date molecular research tools, classification guidelines, immunohistochemical practices, and more. Effectively correlate your findings with clinical

features through all new high quality illustrations none repeated from the previous editions for each diagnostic entity Access the fully searchable text online at www.expertconsult.com along with a downloadable image bank and a link to PathConsult
