Configurations in Postcolonial Literature Birgit Neumann, Gabriele Rippl, 2020-04-23 Examining a range of contemporary Anglophone texts this book opens up postcolonial and transcultural studies for discussions of visibility and vision It argues that the preoccupation with visual practices in Anglophone literatures addresses the power of images vision and visual aesthetics to regulate cultural visibility and modes of identification in an unevenly structured world The representation of visual practices in the imaginative realm of fiction opens up a zone in which established orders of the sayable and visible may be revised and transformed In 12 chapters the book examines narrative fiction by writers such as Michael Ondaatje Derek Walcott Salman Rushdie David Dabydeen and NoViolet Bulawayo who employ word image relations to explore the historically fraught links between visual practices and the experience of modernity in a transcultural context Against this conceptual background the examination of verbal visual relations will illustrate how Anglophone fiction models alternative modes of representation that reflect critically on hegemonic visual regimes and reach out for new more pluralized forms of exchange
