justice cannot be realized for unhoused communities within the liberal model of private property due to how liberalism and liberal ideology prioritize the rights and values of property over the personal rights of self governance

The Injustice of Property is a conceptually robust and empirically rich account of the limits of liberal thinking regarding what just property relations look like for unhoused and housed people alike The book shows that while encampment communities struggle to establish alternative property relationships to the traditional model of private ownership the injustices that residents of encampments face provoke a necessary reevaluation of how beneficiaries of property systems influence who can become housing stable and on which terms This insightful book reveals how the injustices surrounding Portland s encampment communities reflect the limits and injustice of liberal property more broadly *The Mayor's Message Together with the Reports of the City Officers ...* Newark (N.J.).
